"If you believe it is possible to fall in love with a motorcycle, you will love this book." -Jay Leno When Big Sid had a heart attack and gave up the will to live, his son Matthew Biberman panicked. Impulsively, Matthew promised his father that they would build a Vincati together. This fusion of two legendary motorcycles, the Vincent Black Shadow and the Ducati GT, a Vincati was considered near-impossible to build. But if anyone could do it, Matthew knew his father could. Big Sid was the mechanic to see about repairing Vincents for nearly sixty years. But now, Sid was old, busted up and broke. Matthew, despite sharing his dad's passion, had become a Shakespearean scholar. The two men hadn't spoken in years-but called a truce to attempt a shared dream. Zen and the Art of Motorcycle Maintenance meets Shop Class as Soulcraft, in this heartfelt memoir that shows how two very different men built a legendary motorcycle, and along the way, discovered what it

As the costs associated with buying and owning collectible American and European motorcycles continue to rise, enthusiasts are turning in greater numbers to motorcycles produced by Japanese manufacturers from the 1960s to the early 1980s. The prolific production of Japanese motorcycles during this

period today translates to consumer-friendly market values for collectors. This buyer's guide divides the world of classic Japanese motorcycles by the four major manufacturers -- Honda, Kawasaki, Yamaha, and Suzuki -- while emphasizing such landmark models as the Kawasaki Z-1 and Honda CB750, and featuring a chapter of less common models from secondary marques like Bridgestone. Photographs of the motorcycles are accompanied by complete descriptions of specification, components, paint codes, and serial numbers. A five-star rating system grades the bikes on collectibility, parts availability, two-up touring, reliability, and power, while the author highlights common repair and restoration needs, and suggests sources for collectible models.
