of the largest dam removal projects in the world—and the efforts to save a stunning Northwest ecosystem \* Co-published with The Seattle Times \* 125 color photographs, including rare historic images \* Dam removal started in September 2011 while restoration work continues today In the fall of 2011, the Times was on hand when a Montana contractor removed the first pieces from two concrete dams on the Elwha River which cuts through the Olympic range. It was the beginning of the largest dam removal project ever undertaken in North America—one dam was 200 feet tall—and the start of an unprecedented attempt to restore an entire ecosystem. More than 70

miles of the Elwha and its tributaries course from the mountain headwaters to clamming beaches on the Strait of Juan de Fuca. Through interviews, field work, archival and historical research, and photojournalism, The Seattle Times has explored and reported on the dam removal, the Elwha ecosystem, its industrialization, and now its renewal. Elwha: A River Reborn is based on these feature articles. Richly illustrated with stunning photographs, as well as historic images, graphics, and a map, Elwha tells the interwoven stories of this region. Meet the Lower Elwha Klallam tribe, who anxiously await the return of renowned salmon runs savored

over the generations in the stories of their elders. Discover the biologists and engineers who are bringing the dams down and laying the plan for renewal, including an unprecedented revegetation effort that will eventually cover more than 700 acres of mudflats. When the dam started to come down in Fall 2011—anticipated for more than 20 years since Congress passed the Elwha Restoration Act—it was the beginning of a \$350 million project observed around the world. Elwha: A River Reborn is inspiring and instructive, a triumphant story of place, people, and environment striving to come together. Winner of the Nautilus Awards 2014 "Better Books for a

Trident Sprint, Tiger, Speed Triple, Adventurer, Thunderbird - were designed and manufactured using a modular concept. This assists in the sharing of components across the range of bikes, which was useful with the restricted availability of spare parts. With over 725 colour photographs, First Generation Hinckley Triumph (T300) Motorcycles provides helpful guidance on keeping your bike on the road, including a discussion of the models produced and their modular design; identifying common problems and how to address them. There is a

comprehensive guide to maintenance, including the tools required and details of restoration, modification and upgrades, from changing the exhaust to fabricating swing arms. Also included is a useful list of suppliers for both new and reconditioned parts, as well as specialist service providers. WALNECK'S CLASSIC CYCLE TRADER, JUNE 2001 Haynes Publishing UK

Jupiter's Travels - Ted Simon's  
astonishing 4 year motorbike  
journey around the world The  
book that inspired Ewan  
McGregor's Long Way Round  
In the late 1970s Ted Simon  
set off on a Triumph and rode  
63,000 miles over four years  
through fifty-four countries in  
a journey that took him around  
the world. Through  
breakdowns, prison, war,  
revolutions, disasters and a  
Californian commune, he

travelled into the depths of fear  
and reached the heights of  
euphoria. He met astonishing  
people and was treated as a spy,  
a welcome stranger and even a  
god. For Simon the trip became  
a journey into his own soul, and  
for many others - including  
bikers Charley Boorman and  
Ewan McGregor - it provides  
an inspiration they will never  
forget. This classic text, which  
has informed a whole genre of  
travel writing in the thirty years  
since it was first published, will  
never be bettered for sheer  
adventure, passion, humour and  
honesty. Brought up in England  
by a German mother and a

Romanian father, Ted Simon  
found himself impelled by an  
insatiable desire to explore the  
world. It led him to abandon an  
early scientific career in favour  
of journalism, and he has  
worked for several newspapers  
and magazines on Fleet Street  
and elsewhere. Ted Simon is  
also the author of Riding Home  
and The Gypsy in Me.

This best-selling book is also “#1 book in motorcycle safety” (Nielsen BookScan) and essential reading for all motorcyclists regardless of their years of experience. Author David L. Hough, a revered motorcycle author, columnist, and riding-safety consultant, lays out a clear

course for all riders who want to sharpen their handling skills and improve their rides. This second edition, expanded and now in full color, offers new riders and road warriors the exact kind of advice they need to be prepared for anything when on the road, how to avoid accidents, and how to handle the unexpected. Hough, who began motorcycling in the 1960s, tackles every imaginable topic—from the mechanics of the bike, selection of the right-sized bike, and basic riding skills to night riding, group outings, and advanced survival tactics. In the chapter called

“Motorcycle Dynamics,” Hough spells out the equipment needed and basic skills required to control a bike, and specifically keeping the rider’s safety and ability to avoid potentially injurious or fatal crashes. The author is outspoken and direct when it comes to safety, and he emphasizes the importance of the rider’s braking abilities and spells out how to improve them. The chapter offers six tried-and-true techniques for quick-stop tactics, critical for every rider to understand and master. He also addresses other vital skills that riders need to

---

evaluate and improve, such as turning, maintaining balance and stability, and steering. He defines, compares, and analyzes the ins and outs of steering and control: direct steering, countersteering, push steering, out-tracking, coning, u-turns, and directional control. The chapter called “Cornering Habits” is a virtual master class in acceleration, deceleration, use of weight, throttle, leaning, and handling challenging terrain. Hough’s skill as a photographer and illustrator adds a graphic element to his books that leads to immediate understanding of the concepts

he explains. The detail offered in each section of the book can only come from decades on the road, and the author is the consummate instructor, assigning homework to the readers in the form of exercises to practice and improve specific techniques that he outlines and illustrates in the text. Any rider who would venture out on the road without David Hough’s voice in his head takes an unnecessary risk with his own life. Proficient Motorcycling takes riders from long, snaking country roads right into the traffic of the big city, and Hough offers the best advice

for riders dealing with the most challenging conditions, whether it’s road construction, snap-jawed intersections, skateboarders, or suddenly slippery road surfaces. A critical section of the book offers riders advice on how to deal with automobiles, including aggressive car drivers, oblivious SUV drivers, or “blind” truck drivers. The book offers the kind of first-hand experience that can literally save riders’ lives, as illustrated in the chapters “Booby Traps” and “Special Situations,” which offer evasive tactics and advice to

---

avoid and handle everything      complete index.

from slick surfaces, curbs, and construction plates to ferocious dogs, hazardous wildlife, and difficult weather conditions.

The final chapter of the book, “Sharing the Ride,” is geared toward experienced riders who travel together in groups or who travel with a second passenger on the bike. Topics covered are formation, packing for trips, communication between riders, sidecars, trikes, and more. The book concludes with a resources section of organizations, training schools, educational tools, and websites; a glossary of 80+ terms; and a
