THE JOURNEY MATTERS AS MUCH AS THE DESTINATION. Scrap the map and go full throttle. Most leadership books tell you how to set and achieve goals. This one is different. This one is written by a communications leader who 's as passionate about riding motorcycles as she is about running her

business. Her name is Elise Mitchell, and she wants to tell you about her journey—from starting her own agency to building a world-class brand to enjoying the ride along the way. But mostly, she wants to talk to you about your journey... Ask yourself: **WHERE DO YOU WANT TO GO?** Pick a destination. Not just for your career, but for your life. Answer this: **HOW DO YOU PLAN TO GET THERE?** Look at the road ahead. Then plot your course. But be prepared for some major twists, turns, and detours. Most importantly: **ARE YOU ENJOYING THE JOURNEY?** If not, maybe you need to throw away the map. Restart your engine. And get ready for the ride of your life. Whether you're just stepping into leadership an accomplished leader seeking something more, or simply stalled along the way, Mitchell's refreshing approach to modern leadership will help you navigate the curves and pit stops on your own path to fulfillment. You don't need a motorcycle. You just need to get revved up for the road ahead.

From the publishers of **Motorcycle Consumer News**, **Shifting Gears at 50** is a one-of-a-kind motorcycling manual for returning and late-entry riders, essentially anyone 40 years old and up who's looking to hit the road on two wheels. Author Philip Buonpastore, a motorcycle journalist and retired US Air Force photographer, helps readers gear up to get back on a motorcycle (or get on one for the first time). In Part 1, "Becoming a Motorcyclist," Buonpastore discusses the basics of buying the right bike, gear, and equipment and getting the bike up to speed. The book continues with a good overview of learning to

ride, the importance of taking a road course, venturing out on the first ride, and extending rides to long-distance jaunts. Throughout Part 1 are sidebars by riding- safety instructor and expert Walt Fulton, offering sound advice on safety precautions and execution for every leg of the new and returning rider's journey. The author emphasizes what older riders should be aware of and which factors can affect their rides. Adding lots of great firsthand advice are humorous and helpful stories collected by the author and related by returning riders at various ages, from their late 30s to 60s. In Part 2, Buonpastore shares five of his favorite travelogues covering his long-distance tours around the US, from the American South to the west coasts. This section is illustrated by over 100 of the author's breathtaking photographs of the various locations he toured on his bike. The foreword to the book

is provided by best-selling motorcycle author David Hough (author of I-5 Press's Proficient Motorcycling and Mastering the Ride). Hough writes, "If you're getting into today's motorcycling at an age your doctor would describe as 'middle aged' or 'senior,' do you yourself a clever favor and read Phil's book."

Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World

Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up

and Making road legal.

Porting heads is an art and science. It takes a craftsman's touch to shape the surfaces of the head for the optimal flow characteristics and the best performance. Porting demands the right tools, skills, and application of knowledge. Few other engine builders have the same level of knowledge and skill porting engine heads as David Vizard. All the aspects of porting stock as well as aftermarket heads in aluminum and cast-iron constructions are covered. Vizard goes into great depth

and detail on porting aftermarket heads. Starting with the basic techniques up to more advanced techniques, you are shown how to port iron and aluminum heads as well as benefits of hand and CNC porting. You are also shown how to build a high-quality flow bench at home so you can test your work and obtain professional results. Vizard shows how to optimize flow paths through the heads, past the valves, and into the combustion chamber. The book covers blending the bowls, a basic porting procedure, and also covers pocket porting, porting the intake runners, and many advanced procedures. These advanced procedures include unshrouding valves, porting a shortside turn from the floor of the port down

toward the valve seat, and developing the ideal port area and angle. All of these changes combine to produce optimal flow velocity through the engine for maximum power.

Det fyra av fyra av Hot över Östersjön Det ryska hotet blir verklighet En Airbus på väg från Stockholm kolliderar med ett ryskt spionplan. Alla passagerare ombord omkommer. Kländ mellan giriga oligarker och en konkursfärdig statsekonomi har Rysslands president Valerij Volodin för avsikt att skapa internationellt kaos för att dölja sin egentliga plan. Men president Jack Ryan ser ett mönster och tvekar inte att slå tillbaka.

Problemet är bara att Volodin har femtiotusen soldater som står redo att invadera ett Nato-land.

Kommer Jack Ryan att hinna stoppa Volodins hänsynslösa planer? "Imponerande! Ingen annan författare ger en så fullständig bild av pågående omvärldskonflikter." Sunday Times "Perfekt underbyggd och spännande." Publishers Weekly "Skrämmande aktuell." BTJ "Inte bara en spännande, actionfylld thriller utan också rykande aktuell just nu. LÄS DEN!" Boklysten "Tycker du om böcker som i thrillerform tar upp storpolitik och då framför allt med USA som hjälten? Tillhör du det som på allvar tror att Ryssland är ett stort hot mot Sverige och västvärlden? Då är Tom Clancys nya thriller Hot över Östersjön något för dig." Kulturbloggen "Det är en bok som inte saknar några av de ingredienser vi är vana att se i en bok av Clancy." DAST Magazine Tom Clancy (1947-2013) skrev inte mindre än 18 New York Times-bästsäljare under sin livstid. Många ser honom som grundaren till hela internationella thriller-genren och flera av hans böcker har blivit filmklassiker. Mark Greaney är författaren bakom den bästsäljande serien

om The Gray Man. Efter stora framgångar som Tom Clancys författarpartner bär han nu värdigt vidare arvet från sin framlidne mentor i den femte boken om Jack Ryan.

In today's socially networked and highly competitive world, it is imperative that marketers are always truthful because customers eventually find out if they have been misled. This can lead to their angst with the company going viral, thereby destroying the company's reputation. Marketing Management advocates 'marketing based on absolute truth'. Also brand image is sensitive to market sentiments. Brands can be in danger: one wrong product or one shoddy campaign can destroy a brand built over years. Companies must align everything that they do with the core spirit of their brands. Further, when everything seems to go digital, it is important that marketers keep in mind that customers are primarily interested in their

products/services. The book advocates that superior products and services will always be central to marketing. Key Features Best Practices • Researched, implemented, and result-driven practices taken from leading companies across diverse industries throughout the world • Marketers can adopt these practices to elevate individual and organizational performance Corporate Insights • Examples of marketing concepts being implemented by well-known Indian companies and brands • Latest moves of companies and brands as they cope with competition and environment Case Studies • A brief case study after each chapter, focusing on specific issues dealt within the chapter Specialized Questions • Questions meant to make students ponder upon various aspects of marketing and challenge the existing paradigms

Arguably the world's all-time greatest motorcycle road racing champion, Valentino Rossi is without a doubt the best--and the best-loved--in modern times. In *What If I Had Never Tried* It he tells his remarkable story for the first time. And as might be expected, the story he tells is fast-paced, full of surprises, action-packed, and always entertaining. The son of 1970s racer Graziano Rossi (whose number, 46, he wears when racing), Valentino was born in Urbino, Italy in 1979. Here he relates how he started racing as a teenager, first with karts and minimotos (minibikes). He then traces his rapid and seemingly

inexorable progress--from the 125 class to the 250 class to the 500s and finally on to 990 cc four-stroke, now known as MotoGP--to become a seven-time World Champion in Grand Prix racing by the time he was twenty-six. As he describes starting his career as a clownish upstart, only to emerge as "The Doctor" so famed for his precision, Rossi's crowd-pleasing character comes through in abundance. One moment a charismatic jokester, the next an insightful analyst, he is finally the single-minded, focused, strategic racer with split-second skills the rest of us can only dream of, giving us a glimpse of how one man has forever changed the face of motorcycle road racing. *Honda CRF250R (2004), CRF250X (2004) AND CRF450R 2002-2004 World*
