Operation and Maintenance of Large Turbo-Generators is the ultimate resource for operators and inspectors of large utility and industrial generating facilities who deal with multiple units of disparate size, origin, and vintage. It offers the complete scope of information regarding operation and maintenance of all types of turbine-driven generators built in the world. Based on the authors' combined sixty years of generating station and design work experience, the information presented in the book is designed to inform the reader about actual machine operational problems and failure modes that occur in generating stations and other types of facilities. Readers will find very detailed coverage of: Design and construction of generators and auxiliary systems Generator operation, including interaction with the grid Monitoring, diagnostics, and protection of turbo-generators Inspection practices, including stator, rotor, and auxiliary systems Ideas for improving plant reliability and reducing costs and electrical failures Maintenance testing, including electrical and nondestructive examination Operation and Maintenance of Large Turbo-Generators comes filled with photos and graphs, commonly used inspection forms, and extensive references for each topic. It is an indispensable resource for anyone involved in

the design, construction, protection, operation, maintenance, and troubleshooting of large generators in generating stations and industrial power facilities. The book is also an excellent learning tool for students, consultants, and design engineers. [Pacific Magazine](#) Lonely Planet Lonely Planet's bestselling *The Cities Book* is back. Hansebooks newly publishes these books and contributes to the preservation of literature which has become rare and historical knowledge for the future.

Light and Sound John Wiley & Sons

This book collects high-quality papers on issues related to the rebalancing strategy in China, new clean cities as "hubs", liability management, and involving the private sector, including through PPPs, with specific examples from Guangdong. Guangdong has been at the forefront of economic reforms in China since the advent of the Responsibility System in the late 1970s, and its successes and challenges reflect those of China as a whole. The need for rebalancing towards a more inclusive and sustainable path is also critical in Guangdong, just as it is in China. Strengthening the fiscal underpinnings and

the next stages of tax reforms are critical drivers to accomplishing the requisite structural changes.

Four Layers to Your Dream Life Taylor & Francis

This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're happy to make these classics available again for future generations to enjoy!

Fashionary Calder Publications Limited

This title is available in a new edition Success is in the balance. In the Second Canadian Edition of Psychology, John Santrock and John Mitterer present the perfect balance of big ideas vs. supporting detail, breadth vs. depth, and research vs. application, all framed by a pedagogical system that effectively guides the student through the key concepts of psychology. New learning goals launch each chapter and serve as the

organizing mechanism for the text and supporting materials, focusing students' attention on the big ideas of psychology. Rich applications and current research from Canada, the United States, and other countries support the big ideas so that students emerge with an understanding of the key concepts, not a collection of details. Santrock and Mitterer provide both you and your students with the balance you need to succeed!

Geotechnical Site Characterization Archie Comic Publications (Trade)

Uel wasn't always the man of God that he is today. In fact, his life was so far removed from God that some would consider his transformation a miracle. His path was one of depravity and darkness, but God, through His awesome power, intervened and placed him on a path of victory and light. This book is a testimony of his life and the saving grace of God. Be inspired by the faithfulness and power of God to take a life cloaked in sinful rags and clothe it in rich robes of salvation. Independently Published

From the author of the Dracula sequel *Shadows in the Dark* and acclaimed supernatural/horror collections including *Dark Harbors!* With *From Paradise to Hell*, Tom Sawyer takes us on thrilling and terrifying escapades through his home state, incorporating locals myths, legends, history and dark folklore from one end to the other, from top to bottom, from Paradise to Hell. Introduction to Psychology Heinemann Now you can choose between thread and yarn! Not everyone enjoys crocheting with thread. This book includes 101 doilies crocheted using size 10 crochet cotton thread or Omega Emilia worsted-weight yarn. The thread creates a small doily, perfect for coasters for glassware, to grace the table

under a bud vase or candlestick and more. The complete science package for the teaching of doilies made using worsted-weight yarn create the New South Wales Stage 4 and 5 Science Syllabus. The Science Focus Second Edition package retains the identified strengths of the highly successful First Edition and includes a number of new and exciting features, improvements and components. The student book includes: Chapter opening pages which include the key prescribed focus area for the chapter and a clear distinction between essential and additional content; Updated and revised content, photos, illustrations and 'science clip' boxes in a format that is easy to read and follow; Unit questions under headings that are structured in a hierarchical progression using Bloom's Revised Taxonomy; Additional questions which include research, creative writing, investigations and internet activities; Practical activities at the end of each unit allowing teachers to choose when to do practical work.; Student CD which contains an electronic version of the student book.

Not Vanishing Springer

To evaluate commercially developed dry solid film lubricants for aerospace bearing applications, an investigation was conducted to examine the friction and wear behavior of magnetron-sputtered diamondlike carbon (MS DLC) and plasma-assisted, chemical-vapor-deposited diamondlike carbon (PACVD DLC) films in sliding contact with 6-mm-diameter American Iron and Steel Institute (AISI) 440C stainless steel balls. Unidirectional sliding friction experiments were conducted with a load of 5.9 N (600 g), a mean Hertzian contact pressure of 0.79 GPa (maximum Hertzian contact pressure of L-2 GPa), and a sliding velocity of 0.2 m/s. The experiments were conducted at room temperature in three environments: ultrahigh vacuum (vacuum pressure, 7×10^{-7} Pa), humid air (relative humidity, approx.20 percent), and dry nitrogen (relative humidity,
