Automotive Technician Training is the definitive student

textbook for automotive engineering. It covers all the

theory and technology sections that students need to

learn in order to pass levels 1, 2 and 3 automotive

courses. It is recommended by the Institute of the Motor

Industry and is ideal for courses and exams run by other

awarding bodies. This revised edition overhauls the

coverage of general skills and advanced diagnostic

techniques. It also includes a new chapter about electric

and hybrid vehicles and advanced driver-assistance

systems, along with new online learning activities.

Unlike current textbooks on the market, this takes a

blended-learning approach, using interactive features that make learning more enjoyable and effective. It is ideal to use on its own but when linked with IMI eLearning online resources, it provides a comprehensive package that includes activities, video footage, assessments and further reading. Information and activities are set out in sequence to meet teacher and learner needs, as well as qualification requirements.

This How to Restore Norton Commando manual is aimed

at owners and enthusiasts of the legendary Norton

Commando, and covers all areas of restoration from the

sourcing of the bike to its completion as a fully restored

machine. Starting with advice on the different models,

spares availability and where best to source a bike to

restore, the book then covers the complete dismantling

and restoration of the bike. Describing the engine,

frame, gearbox, wheels, suspension and forks, brakes,

ancillaries, bodywork, and electrics, the text is

illustrated with hundreds of clear colour photos. What

really sets this manual apart is the style in which it is

written: not as some dull and distant workshop manual

but in a friendly, humorous manner by an enthusiast of

many years who is able to involve and entertain the

reader, as well as providing a thorough and detailed

restoration guide. This is the fourth restoration guide

from an author whose previous works have been a

massive hit with mechanics, enthusiasts and restorers

throughout the world.
