Honda's CB750 was one of the most important bikes of the 1970s, and is considered by many to be the original superbike.

Launched in 1969, Honda's first four-cylinder roadster revolutionized the motorcycle market, setting new standards of sophistication, user-friendliness and reliable high performance. The innovative CB750, with its overhead-camshaft engine, five-speed gearbox and disc front brake, changed the face of recreational motorcycling worldwide.

Nearly 1 million American soldiers passed through Australia between 1942 and 1945

as part of America's strategy to re-capture the Philippines and defeat Japan. They encountered a country full of reassuring similarities and strange differences. Here was a land of wide-open spaces, roughly the same size as the US, with a can-do, pioneering spirit, a history of swift development; a land of 'funny animals' and peculiar vowel sounds. But who were the Australians and how were Americans to behave in their midst? They were,

---

of course, 'an outdoors sort of people, breezy and very democratic', with a gargantuan appetite for swearing. In the inimitable prose of the soldier's pocket book series, this pithy guide captures the essence of Australia and its people, their humour, vocabulary; their attitude to the Yanks, the British, the War and the world with remarkable economy and clarity. It also manages to squeeze in a précis of Australian history, politics, economics, sports, and

musical tradition, as well as colourful lexicon of national slang, which defines for example sheila as 'a babe', cliner as 'another babe', and sninny as 'a third babe'. Like any self-respecting guide to Australian culture, it contains the text of Waltzing Matilda, together with a few bon mots about its cultural significance, particularly in wartime. Unlike cricket, which is a polite game, Australian Rules Football creates a desire on the part of the crowd to tear

someone apart, usually the referee. The Australian has few equals in the world at swearing ...the commonest swear words are bastard (pronounced "barstud"), "bugger," and "bloody," and the Australians have a genius for using the latter nearly every other word.

The world's only non-denominational exorcist tells her astonishing true story: a riveting chronicle of wrestling entities from infected souls, showing how pain and trauma opens us to attachment from forces that drain our energy . . . and can even destroy our humanity. As a secular exorcist, Rachel H.

Stavis has cleansed thousands of tormented people, from small children and Hollywood moguls to stay-at-home moms and politicians. But for many years, the horror screenwriter and novelist denied her gift. As a little girl, she began to see "monsters" floating around her bedroom or attached to other children. Told it was only her imagination, Rachel learned to ignore the things she saw. But a

series of events in adulthood forced her to acknowledge her unique ability and embrace her power to heal. Since then, Rachel has dedicated her life to helping others cast off the forces feeding off of us. Performing her services pro-bono, she quietly worked in the shadows, until she unknowingly revealed her work to a journalist, who told her story to NPR. A unique look at demonology removed from religious dogma, Sister of Darkness recounts Rachel ' s journey to becoming an exorcist and chronicles some of her most extreme cleansings cases, including those that put her and her clients in peril. Going deep into her world, we meet the diverse range of people she has helped—young, old, famous and not—in gripping stories of danger and sometimes sadness, that are ultimately about redemption. Rachel teaches us that there are a diverse range of "entities" surrounding us—some of these are playful or misguided, while some are dangerous and harmful. She introduces each of them and explains their power, helping us understand what is attacking and hurting us, and what we can do to protect ourselves. Frightening, eye-opening, and utterly
