Imagination is a word that is widely used by marketing practitioners but rarely examined by marketing academics. This neglect is largely due to the imagination's 'artistic' connotations, which run counter to the 'scientific' mindset that dominates marketing scholarship. Of late, however, an artistic 'turn' has taken place in marketing research, and this topical study argues that the mantle of imagination has now passed on from the artist to the marketer. It contends, moreover, that the tools and techniques of artistic appreciation can be successfully applied to all manner of marketplace phenomena. Key features include: * the treatment of artistic artefacts as a source of marketing understanding * a detailed discussion surrounding the argument that marketers should adopt more imaginative modes of academic expression * an analysis of the kind of art that marketing is, and the place of imagination in

marketing's artistic palette. This book provokes a new way of thinking about marketing, and will prove invaluable to marketing academics, researchers and practitioners.

This is the third, and final, book in the Through Fisher's Eyes trilogy. Fisher and his autistic super-hero friends must lead the Earth to a new life as part of a global community. They meet an alien named Robert, a mountain man named Mountain John, and a mysterious alien being named Triptych. Will Fisher and his friends be able to lead the people of Earth away from their violent ways? Full of magic, inter-planetary action and mystery! Great adventure for readers 12 and up! ***Please note: There are some references in this book to Buddhism, Christianity and Judaism.*** This book is available in the full

Fisher's Autism Trilogy one-volume set. All three books are aimed at middle school students and teachers. Paul Nelson, the author, taught elementary and middle school students for 15 years. He wrote this trilogy while he was still teaching and tested them on hundreds of middle school and high school students. The response was overwhelmingly positive. These books are also used by Pace University's Special Education Department as a text book, and there is a plan to make the books, and audio books, available to middle schools throughout the New York City Area. A Problem With the Moon asks the question, "Can the people of Earth break away from their destructive ways and live in peace?" In the end, it's up to Fisher and his autistic warriors to try and encourage peace, tolerance and kindness. Please give it a try today!

Handbook of Automotive Human Factors CRC Press

The story of Giannis Antetokounmpo ' s extraordinary rise
from poverty in Athens, Greece, to superstardom in
America with the Milwaukee Bucks—becoming one of the
most transcendent players in history and an NBA
Champion—from award-winning basketball reporter and
feature writer at The Ringer Mirin Fader. As the face of
the NBA ' s new world order, Giannis Antetokounmpo has
overcome unfathomable obstacles to become a symbol of
hope for people all over the world; the personification of
the American Dream. But his backstory remains largely
untold. Fader unearths new information about the
childhood that shaped “ The Greek Freak ” —from sleeping
side by side with his brothers to selling trinkets on the
street with his family to the racism he experienced.

Antetokounmpo grew up in an era when Golden Dawn,
Greece ' s far-right, anti-immigrant party, patrolled his
neighborhood, and his status as an illegal immigrant
largely prevented him from playing for the country ' s top
clubs, making his NBA rise all the more improbable. Fader
tells a deeply human story of how an unknown, skinny,
Black Greek teen, who played in the country ' s lowest pro
division and was seen as a draft gamble, transformed his
body and his game into MVP material. Antetokounmpo ' s
story has been framed as a feel-good narrative in which

everyone has embraced him—watching him grow up, sign a
five-year supermax contract extension worth \$228 million,
and lead the underdog Bucks to the NBA Championship in
2021. Giannis reveals a more nuanced story: how lonely
and isolated he felt, adjusting to America and the NBA
early in his career; the complexity of grappling with his
Black and Greek identities; how he is so hard on himself
and his shortcomings—a drive that fuels him every day; and
the responsibility he feels to be a nurturing role model for
his younger brothers. Fader illustrates a more vulnerable
star than most people know, a person who has evolved
triumphantly into all of his roles: father, brother, son,
teammate, and global icon. **Instant New York Times

Thanks to advances in computer technology in the last twenty years, navigation system, cabin environment control, ACC, advanced driver assistance system (ADAS) and automated driving have become a part of the automobile experience. Improvement in technology enables us to design these with greater flexibility and provide greater value to the driver (human centered design). To achieve this, research is required by laboratories, automobile and auto parts manufacturers. Although there has been a lot of effort in human factors research and development, starting from basic research to product development, the knowledge and experience has not been integrated optimally. The aim of this book is to collect and review the information for researchers, designers and developers to learn and apply them for further research and development of human centered design of future automotive technologies. Automotive human factors include psychological, physiological, mathematical, engineering and even sociological aspects. This book offers valuable insights to applying the right approach in the right place.

Brands – corporate, products, service – today are collectively defined by their customers, deriving from personal experiences and word of mouth. This book acts as a forum for examining current and future trends in corporate branding, identity, image and reputation. Recognising the complexity and plurality at the heart of the corporate branding discipline, this book fills a gap in the literature by posing a number of original research questions on the intrinsic nature of corporate branding ideas from corporate (external) and organisation (internal) identity perspectives as they relate to brand management, corporate reputation, marketing communications, social media, smart technology, experiential and sensory marketing. It incorporates current thinking and developments by both multidisciplinary academics and practitioners, combining a comprehensive theoretical foundation with practical insights. The text will serve as an important resource for the marketing, identity and brand practitioners requiring more than anecdotal evidence on the structure and operation of stakeholders communication in different geographical areas. It determines current practices and researches in diverse areas, regions and commercial and non-commercial sectors across the world. The book provides scholars, researchers and postgraduate students in business and marketing with a comprehensive treatment of the nature of relationships between companies, brands and stakeholders in different areas and regions of the world.

How to take the pulse of customer emotions weekly without breaking the bank? What would make customers shift their spending to the competition? How to spot new consumer trends and pivot fast? How to build your own AI-powered data routine to improve competitiveness? The Customer Affinity Manifesto by Joss Gillet looks into pressing issues that businesses have to adapt to since the pandemic. People have high expectations and their reactions to an unpleasant user experience are immediate, loud, and unequivocal. While the future is uncertain,

evidence shows that keeping a blind eye on the damage companies could suffer from poor customer affinity would be fatal. This book is filled with the nectar extracted from three million customer comments posted on social media over a five-year data project. The learnings are fascinating as we explore the events that drove customers mad, including the impact of Covid-19, US presidential elections, Brexit, scams, racism or homophobia on customer sentiment. Gillet seeks to understand how emotions influence purchase decisions in a digitized and polarized world. He invites you to step into the shoes of your customers and learn a new method that could help nurture deeper relationships with your customers.

The No 1 Bestseller 'A fascinating read' Seán O'Rourke, RTÉ Radio One 'Fat' Freddie Thompson first appeared in court in 1997. He was sixteen and already aspiring to be a major crime boss. Over the next twenty years his criminal career would be marked by mayhem, brutality and murder. In 2000 a row over a failed drugs deal ignited a murderous feud in Dublin's south inner city. The Crumlin-Drimnagh feud's first victim was a friend of Thompson's and he led his Crumlin crew in a series of tit-for-tat killings. Sixteen young men would lose their lives over the next fifteen years. Meanwhile, childhood friend, Daniel Kinahan, had become a senior figure in his father Christy Kinahan's international crime cartel. Working with the Kinahan Cartel Thompson launched himself as a drugs dealer in Dublin. When another deadly feud broke out in 2016 -

between the powerful Kinahans and veteran Dublin criminal, Gerry 'The Monk ' Hutch - Thompson was ready to get his hands dirty. But Thompson's loyalty would be his undoing. In August 2018 he was convicted of murder and jailed. Fat Freddie is a gripping account of the rise and fall of Freddie Thompson. Award-winning crime journalist, Stephen Breen, co-author of the No 1 bestselling The Cartel, has written the definitive portrait of a notorious Dublin gangster, a shocking story of double-crossing, vengeance and murder.

This book explores the impact of globalization, especially in the context of trade and investment policies, on the key economic outcomes, including innovation, productivity, employment, and wages, using Thai manufacturing as a case study. The book looks at the impacts of the shift of manufacturing share from industrialized to emerging countries and emergence of ' global value chains ' (GVCs) as well as liberalization through the proliferation of free-trade agreements (FTAs) on key economic outcomes. The book highlights that globalization, through trade (including the parts and components trade) and investment, continues in Thailand amid the anti-globalization sentiment since the onset of the new millennium, especially the US – China trade war and the COVID-19 pandemic. Thailand has gained considerable benefit

from trade and investment liberalization in various forms, including innovation, firm productivity improvements, and workers ' skills enhancement. Although the country has prospered in these areas, several further enhancements are needed in order to effectively harness the benefits available from globalization, including continued trade and investment policy reforms. Key policy inferences are provided in the last chapter. The book will appeal to those with an interest in international economics, especially issues relating to the economic consequences of globalization. It will also appeal to policymakers and practitioners responsible for international trade and investment regulations.
