During the decade prior to the advent of the World Superbike Championship in 1988, Honda's RVF four-stroke motorcycles dominated the World Endurance Championship and the World F1 Championship. Initially, however, Honda's V-4 powerplant was a total disaster. But with major financial reinvestment, the engine's fortunes turned and it went on to enjoy significant competition success. This is the story behind the development of Honda's four-stroke RVF and RS racers, as well as the VFR streetbike, which has remained a highly sought-after motorcycle for more than a decade. Author Julian Ryder follows Honda's four-stroke engine, from the early disappointments, to the competition successes of Joey Dunlop, to the introduction of the fuel-injected RC45, which is still the basis for today's Superbike races. Also included are detailed competition results and motorcycle specifications.

By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant

Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.
