Climategate is the light shining on the darkness of the global warming scam. Those now notorious

intercepted emails documenting leading scientists conspiring to squelch global-warming skeptics and falsifying data proved exactly what Brian Sussman has been saying for years. Climategate is intended for anyone who has ever expressed skepticism about the clamorous environmentalist claims that the Earth is in peril because of mankind's appetite for carbon-based fuels. By tracing the origins of the current climate scare, Sussman guides the reader from the diabolical minds of Marx and Engels in the 1800s, to the global governance machinations of the United Nations today. Climategate is a call to action, warning Americans that their future is being undermined by a phony pseudo-science aimed at altering and dominating every aspect of life in the United States and the world.

Teens form an all-girl band in the face of an impending comet. A woman faces giant spiders to collect silk and protect her family. New friends take their radio show on the road in search of plague survivors. A man seeks love in a fading world. How would you survive the apocalypse? Defying Doomsday is an anthology of apocalypse fiction featuring disabled and chronically ill protagonists, proving it's not always the "fittest" who survive – it's the most tenacious, stubborn, enduring and innovative characters who have the best chance of adapting when everything is lost. In stories of fear, hope and survival, this anthology gives new perspectives on the end of the world, from authors Corinne Duyvis, Janet Edwards, Seanan McGuire, Tansy Rayner Roberts, Stephanie Gunn, Elinor Caiman Sands, Rivqa Rafael, Bogi Takács, John Chu, Maree Kimberley, Octavia Cade, Lauren E Mitchell, Thoraiya Dyer, Samantha Rich, and K L Evangelista.
