Many books have been published about Italian motorcycles, but none has focused exclusively on the Italian motorcycle-based chopper, bobber, trike, and quad custom bike scene – until now. Even though customising is not normally associated with Italian brands, there are some fantastic individually-built Italian custom bikes out there, old and new. In recognition of the trend, Ducati entered into a new market segment when it launched its power cruiser Diavel in November 2010, while Moto Guzzi has its Aquila Nero range ... these and many other custom-style bikes have been well-received in the customs scene. This book looks at some of the fascinating custom projects around the world, accompanied by stunning photography of the finished bikes. Perfect in its compactness, in its functionality, and in its widely imitated design, the Vespa scooter is not only a means of transport, but a true icon. In celebration of Vespa's 75th anniversary, Vespa: Style and Passion is the lavishly illustrated official history of the legendary scooters and the culture they've inspired. Introduced by the Italian firm Piaggio in 1946 with the model 98, Vespa enjoyed quick success. The scooters' diminutive size and affordability were perfect for promoting postwar mobility. But as with most novel designs, it would also be highly imitated, destined for icon status. From Piaggio's origins to the first Vespa prototypes to today's forward-looking Elettrica model, Vespa: Style and Passion is the ultimate retrospective of this beloved brand. A rich selection of visuals includes dozens of studio images of the most significant models from throughout Vespa history--including classics like the 125, 150 GS, Super Sprint, Primavera, and Rally--as well as period advertisements, rare archival photographs, and images of Vespas in popular culture and motorsport. Mod culture, perhaps most responsible for

spreading scooter culture, is also given its due with images of customized Vespas. Vespa: Style and Passion relates with elan and high design the endless evolution of a marque that has conquered six continents, with 19 million units sold. The Vespa is not simply a scooter, but the scooter, known and appreciated the world over--a rare example of a motor vehicle that survived crises and fashions, always remaining faithful to the original concept. This is the definitive story of that influence.

Undeterred by nomads, sand drifts, heat, rain, rivers, breakdowns and politics, Theresa Wallach and Florence Blenkiron completed a journey that might well defeat a modern bike. From oasis to oasis arguing with the French Foreign Legion for permission to continue, and winning; fashioning a tow hitch for the trailer when it broke in the desert; rebuilding the entire engine from scratch in Agadez; meeting gorillas, lions and snakes on the road, staying in African villages and meeting an amazing variety of friendly and helpful people. Not to mention having an accident in Tanganyika (Tanzania) with the only car seen on the road for days!
