Sarah Jung
comes a
heartwarming
and beautifully
told story
about family,
planting roots,
and standing
tall in the face
of your fears.
June's father is
like a goose --
he flies away
for long
periods of
time, which
means that
June doesn't
get to see him
very often. So
he is happy
when Father
comes home
from his

journeys, and
happier still
when the
family plants a
tangerine tree
together and
Father tells
June, "Next
time I am here,
this tree will be
bigger, and so
will you."
Caring for a
growing sapling
is a great
responsibility
and June takes
it very
seriously.
When an
accident
happens and
the tree topples
over, June
worries his
family will
change forever.
But things that

have fallen can be replanted, and sometimes facing our biggest fears reveals our greatest strengths.

Pre-Incident Indicators of Terrorist Incidents
Veloce Publishing
This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for

terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
