We live in a data-driven world, and the goal of this Canadian text is to teach students how to access and analyze these

data critically. Canadian authors Jim Stallard and Michelle Bou é emphasize that learning statistics extends beyond the classroom to an essential life skill, and want Canadian students to develop a "data habit of mind." Regardless of their math backgrounds, students will learn how to think about data and how to reason using data. With a clear, unimposing writing style and carefully chosen pedagogy, this text makes data analysis accessible to all students. KEY TOPICS: Introduction to Data; Picturing Variation with Graphs; Numerical Summaries of Centre and Variation; Regression Analysis: Exploring Associations between Variables; Modelling Variation with Probability; Modeling Random Events: The Normal and Binomial Models; Survey Sampling and Inference; Hypothesis Testing for Population Proportions; Inferring Population Means; Associations between Categorical Variables; Multiple Comparisons and Analysis of Variance; Experimental Design: Controlling Variation; Inference without Normality; Inference for Regression MARKET: A textbook suitable for all introductory statistics courses Cycle World Magazine Brooklands Books

From stunning debut talent Sarah Jung comes a heartwarming and beautifully told story about family, planting roots, and standing tall in the face of your fears. June's father is like a goose -- he flies away for long periods of time, which means that June doesn't get to see him very

often. So he is happy when Father comes home from his journeys, and happier still when the family plants a tangerine tree together and Father tells June, "Next time I am here, this tree will be bigger, and so will you." Caring for a growing sapling is a great responsibility and June takes it very seriously. When an accident happens and the tree topples over, June worries his family will change forever. But things that have fallen can be replanted, and sometimes facing our biggest fears reveals our greatest strengths.

Arvid Falk is a young and idealistic government worker who always wanted to be a poet. When a journalist writes a newspaper exposé based on Arvid's stories about his useless government department, Arvid is fired immediately. Starting afresh he sets out to explore every corner of the Swedish society, and the hypocrisy and corruption he finds shocks him. Walking the streets of Stockholm will never be the same again once this novel gets under your skin. Named the first modern Swedish novel, 'The Red Room' (1879) is wonderfully insightful and ironic. The Charles Dickens influence is undeniable and Strindberg's writing has been rightfully compared to that of Henrik Ibsen as well.

August Strindberg (1849-1912) was a world-famous Swedish playwright, who, in Sweden, was known for his novels, poems, essays and paintings as well. Along with Henrik Ibsen, Hans Christian Andersen, Søren Kierkegaard and Selma Lagerlöf he is one of the all-time most influential authors of Scandinavia.

By his early thirties, Paul Allen was a world-famous billionaire-and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor-combined with the resources to launch and support new initiatives-have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he has solved problems, what he's learned from his many endeavors-both the triumphs and the failures-and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.
