Guide to the Collectible Models

1958-90 Clymer

Repair Manuals

The complete story of the legenday Honda V4

motorcycles and the four-stroke engine design that gave them the name.

Including full

production histories, comprehensive specification details and over 250 colour illustration, the book covers design and development of the first Honda V4, the oval piston NR500, and the VFR road models from 1982-1988. Also covered: the iconic sport touring bikes, the VFR750, VFR800 and

VFR1200F; the worldwide racing success for Honda Racing Corporation's RC30; the 1990 Pan European/ST1100, with its longitudinal V4 engine, and the 2002 ST1300; Honda V4s in MotoGP; details of the 2014 VFR800 and CTX1300 cruiser and finally, owners' experiences and insight from those

who worked in the industry. Fully illustrated with 256 colour photographs and comprehensive specification details.

exploration of one of
the largest dam

removal projects in
the world—and the
efforts to save a
stunning Northwest
ecosystem * Co-
published with The
Seattle Times * 125
color photographs,
including rare
historic images * Dam
removal started in
September 2011 while
restoration work
continues today In
the fall of 2011, the
Times was on hand
when a Montana
contractor removed
the first pieces from

two concrete dams on the Strait of Juan de Fuca. Through interviews, field work, archival and historical research, and photojournalism, The Seattle Times has explored and reported on the dam removal, the Elwha ecosystem, its industrialization, and now its renewal. *Elwha: A River Reborn* is based on these feature articles. Richly illustrated with stunning photographs, as well as historic images, graphics, and a map, *Elwha* tells the interwoven stories of this region. Meet the Lower Elwha Klallam tribe, who anxiously await the return of renowned salmon runs savored over the generations in the stories of their elders. Discover the biologists and engineers who are bringing the dams down and laying the plan for renewal, including an

unprecedented revegetation effort that will eventually cover more than 700 acres of mudflats. When the dam started to come down in Fall 2011—anticipated for more than 20 years since Congress passed the Elwha Restoration Act—it was the beginning of a \$350 million project observed around the world. Elwha: A River Reborn is inspiring and instructive, a triumphant story of

place, people, and environment striving to come together. Winner of the Nautilus Awards 2014 "Better Books for a Better World" Silver Award!

Wiley
Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of

suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate

assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and

assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem. **Identification of Parts Failures** Haynes Manuals N.
