Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026).

While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Windows of the Heavens Thinking Kids

When the heavens open on the small river town of Occoquan, Virginia, the streets flood and a candle shop is swept away. A Methodist pastor named Harley Camden witnesses the destructive deluge and then discovers, in the debris, a dead man with a crude carving of Satan's claws in his back. Harley is drawn into the mystery of what caused the flood and who killed the man, while diving into questions of good and evil, body and spirit, humanity and the environment--especially questions about the change in climate that now threatens life around the globe. He discovers that there is a spiritual dimension to every social issue, whether it be the violence of Central American gangs or the racism that leads a black businessman to make a fateful choice. When the windows of the heavens open, surprising truths are revealed about how people can coexist in an interfaith, multicultural community, and how humans can establish a sustainable relationship with the natural world around them.
