Part biography, part social commentary, and part cold case, a compelling tale of the author's descent into his son's problems and the madness of the perpetual dysfunction of the country's mental health system. There is an astonishing level of detail taken from

reports, evaluations, and the author's own journal entries, as he records his frustration, heartbreak, as well as a fair amount of humor. The MH system appears as bureaucratic maze of incompetence and callousness more interested in collecting insurance payments and protecting itself from liability than in assisting others. The failure of the system in the case of the author's son has disastrous results. Physically abused at the age of one and a half by his own biological father, the subject of this book commits physical abuse to an infant twenty-one years later

with fatal consequences. And just when readers have thought it couldn't get any worse, there is a twist at the end that is beyond belief. Staring when the boy was four, the author writes of his efforts to raise his son by himself. It is clear from the beginning that Christopher has emotional problems, and the author seeks help. However, the boy is continuously misdiagnosed as ADHD with the solution being to try another medication. Indications that the boy is brain-damaged are ignored for many years. In school learning takes a back seat to behavior management.

Adolescence brings violence, substance abuse, inappropriate sexual advances, and turns in and out of placements. At a crucial stage where both father and son are pleading for help, the MH system does not even return phone calls. Throughout the emphasis is on the failure of the MH system rather than the possible shortcomings of individuals. Pseudonyms are used to maintain the focus on the system. The author concludes by citing crucial points in his son's life were opportunities for interventions were missed. He also cites long standard practices in the MH

field that deflect accountability and keep the system inefficient. Recommendations for changes in the system are made. In the book's final passage, the author citing a case of a student in the last year in which the recommendations by the MH system are totally inappropriate for the student. were characters in books, but her real life takes an extraordinary turn when a mysterious "Mr. Knightley" offers her a full journalism scholarship—on the condition that she write to him regularly. Will their long-distance friendship unlock her heart? Sam is, to say the least, bookish. An English major of the highest order, her diet has always been Austen, Dickens, and Shakespeare. The problem is that both her prose and conversation tend to be more Elizabeth Bennet than Samantha Moore. But life for the twenty-three-year-old orphan is about to get stranger than fiction. An anonymous, Dickensian benefactor calling himself Mr. Knightley offers to put Sam through Northwestern University 's prestigious Medill School of Journalism. There is only one catch: Sam must write frequent letters to the mysterious donor, detailing her progress. Sam 's letters to Mr. Knightley become increasingly confessional as she begins to share everything from her painful childhood memories to her growing feelings for eligible novelist Alex Powell. While Alex draws Sam into a world of warmth and literature that feels like it 's straight out of a book, old secrets are drawn to light. And as Sam learns to love and trust Alex and herself, she learns once again how quickly trust can be broken. But first—this being Hiaasen country—Yancy must negotiate an obstacle course of wildly unpredictable events with a crew of even more wildly unpredictable characters, including his just-ex lover, a hot-blooded fugitive from Kansas; the twitchy widow of the frozen arm; two avariciously optimistic real-estate speculators; the Bahamian voodoo witch known as the Dragon Queen, whose suitors are blinded unto death by her peculiar charms; Yancy ' s new true love, a kinky coroner; and the eponymous bad monkey, who with hilarious aplomb earns his place among Carl Hiaasen ' s greatest characters.

2003, while diving on the wreck of the SS Yongala on the Great Barrier Reef, an American tourist photographed his new wife for their honeymoon album. Instead the photo would become a vital police exhibit. On the right-hand side of the shot, Tina Watson's body lay 27 metres down on the ocean floor, one arm outstretched, reaching upwards. This is the photograph that shocked millions across Australia and the US. How could a healthy young woman have died, a mere seven minutes into her

dive, when Gabe Watson, her buddy and husband of only eleven days, was a certified rescue diver? And why did he later relay sixteen different versions of what happened that day to other divers, police, friends and family? Did he cold-bloodedly shut off her air or did he panic after claiming her flailing arms dislodged his mask and regulator? When he ascended to the surface, was it to get help or to callously abandon his bride to her ultimate fate? These remain the captivating questions at the heart of this

her true-life thriller. Researched across two continents, Honeymoon Dive is in turns disturbing and enthralling as it painstakingly reconstructs events behind one of Australia's most darkly fascinating tragedies.
