This air purifier model continually helps clean the air and helps reduce airborne bacteria, germs and mold spores by drawing air through the HEPA filter which traps and collects these particulates. In a test lab, the air purifiers were tested for reducing airborne pathogens that passed through the filter, and results indicated a bacterial reduction up to 100% with a mean reduction of 99.3%.

manuals - Honeywell Plugged In

The Honeywell True HEPA air purifier offers 3 powerful cleaning levels and can help reduce the amount of odors and airborne particles in large rooms. Its long-life True HEPA filter captures up to 99.97% of particles as small as 0.3 microns (250x smaller than the width of a human hair) and typically only has to be replaced every three to five years.

Honeywell 's 50250-S is a bit different from some of the company 's other air purifiers (also called air cleaners) sold today. As it 's a slightly older design, it works the same in many ways but it 's a bit different as far as features and details go.. Basically, the 50250-S is an air purifier that 's a no-frills "workhorse" designed for large rooms up to 390 square feet in size.
