An insider's never-before-told story about how a struggling computer animation company called Pixar became one of the greatest entertainment organizations of all time. ¶ “ Part business book and part thriller—a tale that ’ s every bit as compelling as the ones Pixar tells in its blockbuster movies. ” —Dan Lyons, best-selling author of *Disrupted* ¶ After he was dismissed from Apple in the early 1990s, Steve Jobs turned his attention to a little-known graphics company he owned called Pixar. One day, out of the blue, Jobs called Lawrence Levy, a Harvard-trained lawyer and executive to whom he had never spoken before. He hoped to persuade Levy to help him pull Pixar back from the brink of failure. This is the extraordinary story of what happened next: how Jobs and Levy concocted and pulled off a highly improbable plan that transformed Pixar into the Hollywood powerhouse it is today. Levy offers a masterful, firsthand account of how Pixar rose from humble beginnings, what it was like to work so closely with Jobs, and how Pixar ’ s story offers profound lessons that can apply to many aspects of our professional and personal lives. ¶ “[A] delightful book about finance, creative genius, workplace harmony, and luck. ” —*Fortune* ¶ “ Enchanting. ” —*The New York Times* ¶ “ I love this book! I think it is brilliant. ” —Ed Catmull, cofounder and president of Pixar Animation, president of Disney Animation, and coauthor of the bestseller *Creativity Inc.* ¶ “ A natural storyteller, Levy offers an inside look at the business and a fresh, sympathetic view of Jobs. ” —*Success Magazine* ¶ An Amazon Best Book of 2016 in Business & Leadership
