The communication field is evolving rapidly in order to keep up with society's demands. As such, it becomes imperative to research and report recent advancements in computational intelligence as it applies to communication networks. The Handbook of Research on Recent Developments in Intelligent Communication Application is a pivotal reference source for the latest developments on emerging data communication applications. Featuring extensive coverage across a range of relevant perspectives and topics, such as satellite communication, cognitive radio networks, and wireless sensor networks, this book is ideally designed for engineers, professionals, practitioners, upper-level students, and academics seeking current information on emerging communication networking trends.

Ongoing advancements in modern technology have led to significant developments with smart technologies. With the numerous applications available, it becomes imperative to conduct research and make further progress in this field. Smart Technologies: Breakthroughs in Research and Practice provides comprehensive and interdisciplinary research on the most emerging areas of information science and technology. Including innovative studies on image and speech recognition, human-computer interface, and wireless technologies, this multi-volume book is an ideal source for researchers, academicians, practitioners, and students interested in advanced technological applications and developments.

F & S Index of Corporations and Industries Rand Corporation
Outdoor wayfinding and navigation systems and services have become indispensable in people's mobility in unfamiliar environments. Advances in key technologies (e.g., positioning and mobile devices), has spurred interest in research and development of indoor wayfinding and navigation systems and services in recent years. Indoor Wayfinding and Navigation provides both breadth and depth of knowledge in designing and building indoor wayfinding and navigation systems and services. It covers the types of sensors both feasible and practical for localization of users inside buildings. The book discusses current approaches, techniques, and technologies for addressing issues in indoor wayfinding and navigation systems and services. It includes coverage of the cognitive, positioning, mapping, and application perspectives, an unusual but useful combination of information. This mix of different perspectives helps you better understand the issues and challenges of building indoor wayfinding and navigation systems and services, how they are different from those used outdoors, and how they can be used efficiently and effectively in challenging applications. Written by well-known specialists in the field, the book addresses all aspects of indoor wayfinding and navigation. It includes the latest research developments on the topic, succinctly covers the fundamentals, and details the issues and challenges in building new systems and services. With this information, you can design indoor wayfinding and navigation systems and services for a variety of uses and users.

IBPS RRB Guide for Officer Scale 1 (Preliminary & Main), 2 & 3 Exam with 3 Online Practice Sets 5th Edition Disha Publications
The current book "IBPS-CWE RRB Guide for Officer Scale I, II & III Exam with 3 Online Tests" covers all the 5 sections asked in the RRB exam English Language, Quantitative Aptitude, Data Interpretation, Reasoning, Computer Knowledge and Financial Awareness. The book provides the Solved Papers of 2017 for Scale I, II & III. The book covers Revision Material on Financial Awareness. The book provides well illustrated theory with exhaustive fully solved examples for learning. This is followed with an exhaustive collection of solved questions in the form of Exercise. The book is a one stop solution to all the requirements of the students aspiring for Officer Scale II and III. The book provides 3 Online Practice Sets on the latest pattern of the exam for the Mock Online experience. These tests will be useful for Scale I, Scale II (GBO) & Scale III.

Technical Abstract Bulletin Artech House
This invaluable second volume of a two-volume set is filled with details about the integrated circuit design for space applications. Various considerations for the selection and application of electronic components for designing spacecraft are discussed. The basic constructions of submicron transistors and schottky diodes during the technological process of production are explored. This book provides details on the energy consumption minimization methods for microelectronic devices. Specific topics include: Features and physical mechanisms of the effect of space radiation on all the main classes of microcircuits, including peculiarities of radiation impact on submicron integrated circuits;Special design, technology, and schematic methods of increasing the resistance to various types of space radiation;Recommendations for choosing research equipment and methods for irradiating various samples;Microcircuit designers on the composition of test elements for the study of the effect of radiation;Microprocessors, circuit boards, logic microcircuits, digital, analog, digital-analog microcircuits manufactured in various technologies (bipolar, CMOS, BiCMOS, SOI);Problems involved with designing high speed microelectronic devices and systems based on SOS-and SOI-structures;System-on-chip and system-in-package and methods for rejection of silicon microcircuits with hidden defects during mass production.

Profiling hundreds of space programmes and their different technologies, Jane's Space Directory enables you to identify thousands of different commercial and defence applications. Key objectives, developments and technical specifications of available vehicles and systems are reviewed, including the new generation of launch vehicles. Structured around the categorisation of functions and presented for quick comparison and evaluation, each entry comes with accompanying illustrations. Supplier and manufacturer listings help support your market research and procurement requirements. Key content includes: Government and non-government space programmes; Global space industry directory; Civilian operations; Orbital and suborbital launch vehicles; Propulsion; Commercial and military satellites; Planetary and space science; Human space flight; Launch listings; Contractors. For a complete listing of aerospace organisations and personnel around the globe see Jane's International ABC Aerospace Directory.

Space Microelectronics Volume 2: Integrated Circuit Design for Space Applications
Oxford University Press, USA
TECHNOLOGY NOW: YOUR COMPANION TO SAM COMPUTER CONCEPTS helps students learn computer concepts that are essential for success in the workplace today. Technology Now aligns perfectly with the SAM Computer Concepts tasks; this 1:1 correspondence of book topics to SAM content provides a streamlined learning experience for all students, no matter what their learning style or level of experience. Adapted for print (or digital e-book) by technology expert and author Professor Corinne Hoisington, Technology Now not only compliments and reinforces the online experience, but also provides additional material beyond what is in SAM to help students learn; hands-on activities let students try new technologies and ethical issues scenarios, critical thinking activities, and team projects help to elevate their thinking and keep them engaged and motivated. Technology Now is written in simple language with fun and interesting examples that today's students can relate to; information is current, concise and presented visually in bite-sized chunks with key terms highlighted and defined. Customize the printed book to include just the chapters that meet your course's learning objectives, and set up your SAM course so it contains only the SAM tasks covered in the book. Use the e-book version with SAM for a 100% digital course. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Comprehensive Guide to SBI Bank PO Preliminary & Main Exam (8th Edition) Disha Publications
