What Makes the First-year Seminar High Impact? Macmillan

Following the 1833 Treaty of Chicago, the Potawatomi, once concentrated around southern Lake Michigan, increasingly dispersed into nine bands across four states, two countries, and a thousand miles. How is it, author Christopher Wetzel asks, that these scattered people, with different characteristics and traditions cultivated over two centuries, have reclaimed their common cultural heritage in recent years as the Potawatomi Nation? And why a "nation"—not a band or a tribe—in an age when nations seem increasingly impermanent? *Gathering the Potawatomi Nation* explores the recent invigoration of Potawatomi nationhood, looks at how marginalized communities adapt to social change, and reveals the critical role that culture plays in connecting the two. Wetzel's perspective on recent developments in the struggle for indigenous sovereignty goes far beyond current political, legal, and economic explanations. Focusing on the specific mechanisms through which the Potawatomi Nation has been reimagined, "national brokers," he finds, are keys to the process, traveling between the bands, sharing information, and encouraging tribal members to work

together as a nation. Language revitalization programs are critical because they promote the exchange of specific cultural knowledge, affirm the value of collective enterprise, and remind people of their place in a larger national community. At the annual Gathering of the Potawatomi Nation, participants draw on this common cultural knowledge to integrate the multiple meanings of being Potawatomi. Fittingly, the Potawatomis themselves have the last word in this book: members respond directly to Wetzel's study, providing readers with a unique opportunity to witness the conversations that shape the ever-evolving Potawatomi Nation. Combining social and cultural history with firsthand observations, *Gathering the Potawatomi Nation* advances both scholarly and popular dialogues about Native nationhood. The responsibility for college success has historically rested with the student, but since the 1980s, educators have taken increasing ownership of this, designing structures that increase the likelihood of learning, success, and retention. These efforts have included a variety of initiatives--first year seminars, learning communities, writing-intensive courses, common intellectual experiences, service-learning, undergraduate research, and senior capstones among others--that have come to be known as high-impact practices. Although first year seminars have been widely accepted as a high impact educational practice leading to improved academic performance, increased retention and

acquisition of critical 21st Century outcomes, first-year seminars tend to be loosely defined in the literature.

National explorations of course structure and administration demonstrate the diversity of the curricular initiatives across various campuses. In order to determine the attributes that all of these varied courses share in common that contribute to their effectiveness, the National Resource Center for The First-Year Experience and Students in Transition at the University of South Carolina invited contributions for a book exploring effective educational practices within the first-year seminar. This collection of case studies represents a wide variety of institutional and seminar types. The authors describe the structure, pedagogy, and assessment strategies that lead to high quality seminars and they offer abundant models for ensuring the delivery of a high-quality educational experience to all entering students. The table of contents includes the following: (1) Structural Supports for Effective Educational Practices in the First-Year Seminar (Tracy L. Skipper); (2) The American University of Rome (Jenny Petrucci); (3) Cabrini University (Richard Gebauer, Michelle Filling-Brown, and Amy Perischetti); (4) Clark University (Jessica Bane Robert); (5) Coastal Carolina University (Michele C. Here is the inspiring story behind the Veterans Day red poppy, a symbol that honors the service and sacrifices of our veterans. When American soldiers entered World War I, Moina Belle Michael, a schoolteacher from Georgia, knew she had to act. Some of the soldiers were her students and friends. Almost single-handedly, Moina worked to establish the red poppy as the symbol to honor and remember soldiers. And she devoted the rest of her life to making sure the symbol would last forever. Thanks to her hard work, that symbol remains strong today. Author Barbara Elizabeth Walsh and artist Layne Johnson worked with experts, primary documents, and Moina's great-nieces to better understand Moina's determination to honor the war veterans. A portion of the book's proceeds will support the

National Military Family Association's Operation Purple®, which
benefits children of the US Military.
