She shares her system to turn cleaning from a chore into an effortless habit, and also shares recipes for organic, environmentally conscious cleaning supplies.

Lodging Hospitality Penguin UK

A young detective's first case in Tennessee puts her on the path of a gruesome serial killer in the New York Times bestselling author's romantic thriller. One by one, they will die. He has waited patiently, envisioning their final moments. Their tortured screams, their pleas for mercy—all will be in vain as he executes his sadistic plan. Homicide detective Julia Cass has witnessed plenty of crime scenes. But the murder of a Chattanooga judge is shocking in its brutality. Teamed with FBI agent Will Brannock, Julia delves into an investigation that soon unearths more bodies—all mutilated in the same way, all left with a gruesome souvenir of a killer's ruthless rage . . . The only way to stop the slaughter is to predict the next victim. But when you're dealing with vengeance at its most ruthless, one wrong move can make you a target . . . and the next word you utter could be your last . . .

The Royal Guide To Spot And Stain Removal Macmillan

With a New Chapter and Updated Epilogue on Coronavirus A Financial Times Best Health Book of 2019 and a New York Times Book Review Editors' Choice "Honigsbaum does a superb job covering a century's worth of pandemics and the fears they invariably unleash." —Howard Markel, MD, PhD, director of the Center for the History of Medicine, University of Michigan How can we understand the COVID-19 pandemic? Ever since the 1918 Spanish influenza pandemic, scientists have dreamed of preventing such catastrophic outbreaks of infectious disease. Yet despite a century of medical progress, viral and bacterial disasters continue to take us by surprise, inciting panic and dominating news cycles. In The Pandemic Century, a lively account of scares both infamous and less known, medical historian Mark Honigsbaum combines

reportage with the history of science and medical sociology to artfully reconstruct epidemiological mysteries and the ecology of infectious diseases. We meet dedicated disease detectives, obstructive or incompetent public health officials, and brilliant scientists often blinded by their own knowledge of bacteria and viruses—and see how fear of disease often exacerbates racial, religious, and ethnic tensions. Now updated with a new chapter and epilogue.

Little House Living Rodale

Imagine if your best friend gave you vital information that could protect you and your family, and save you money, and help the planet. Imagine if you were given clear, simple choices, small changes that could have a big impact on your life. And you could still wear leather shoes and deodorant. You'd listen, right? Well, think of Today show contributor Sloan Barnett as that friend. A mother of three, a dedicated consumer advocate, Sloan gives us a fast, simple, down-to-earth primer on the ways our homes are making us sick, and what we can all do to transform them into the safe sanctuaries we want and need them to be. Sloan exposes the toxic truth behind the household products we use every day -- from laundry detergent to toothpaste to lipstick. She explains how these and other seemingly benign stuff can harm us and our children. She offers an array of alternatives, and inspires us to see that we're never helpless: Every day, we have the power to make better, smarter, safer choices. Packed with common sense and sass, product picks and practical tips, Green Goes With Everything is for everyone who wants to live a healthier life.

Reviews of Environmental Contamination and Toxicology 201 Pebble

Read Diane McEachern's posts on the Penguin Blog. Protecting our environment is one of the biggest issues facing our planet today. But how do we solve a problem that can seem overwhelming—even hopeless? As Diane McEachern argues in Big Green Purse, the best way to fight the industries that pollute the planet, thereby changing the marketplace forever, is to mobilize the most powerful consumer force in the world—women. McEachern's message is simple but revolutionary. If women harness the "power of their purse" and intentionally shift their spending money to commodities that have the greatest environmental benefit, they can create a cleaner, greener world. Spirited and informative, this book: - targets twenty commodities—cars, cosmetics, coffee, food, paper products, appliances, cleansers, and more—where women's dollars can make a dramatic difference; - provides easy-to-follow guidelines and lists so women can choose the greenest option regardless of what they're buying, along with recommended companies they should support; - encourages women to spend wisely by explaining what's worth the premium price some green products cost, what's not, and when they shouldn't spend money at all; and - differentiates between products that are actually "green" and those that are simply marketed as "ecofriendly." Whether readers want to start with small changes or are ready to devote the majority of their budget to green products, McEachern offers concrete and immediate ways that women can take action and make a difference. Empowering and enlightening, Big Green Purse will become the "green shopping bible" for women everywhere who are asking, "What can I do?"

The 15-Minute Clean CRC Press

The immensely popular blogger behind Little House Living provides a timeless and "heartwarming guide to modern homesteading" (BookPage) that will inspire you to live your life simply and frugally—perfect for fans of The Pioneer Woman and The Hands-On Home. Shortly after getting married, Merissa Alink and her husband found themselves with nothing in their pantry but a package of spaghetti and some breadcrumbs. Their life had seemingly hit rock bottom, and it was only after a touching act of charity that they were able to get back on their feet again. Inspired by this gesture of kindness as well as the beloved Little House on the Prairie books, Merissa was determined to live an entirely made-from-scratch life, and as a result, she rescued her household budget—saving thousands of dollars a year. Now, she reveals the powerful and moving lessons she's learned after years of homesteading, homemaking, and cooking from scratch. Filled with charm, practical advice, and gorgeous full-color photographs, Merissa shares everything from tips on budgeting to natural, easy-to-make recipes for taco seasoning mix, sunscreen, lemon poppy hand scrub, furniture polish, and much more. Inviting and charming, Little House Living is the epitome of heartland warmth and prairie inspiration.

This publication provides an assessment of the carcinogenic hazards associated with exposure to seven chlorinated solvents, including trichloroethylene, tetrachloroethylene, and their metabolites (dichloroacetic acid, trichloroacetic acid, and chloral hydrate). All these agents were previously assessed by IARC Working Groups more than 10 years ago, and new epidemiological and mechanistic evidence has been considered in this reevaluation. Trichloroethylene has been used in several industries, such as manufacture and repair of aircraft and automobiles, and in screw-cutting, while tetrachloroethylene is widely used in dry-cleaning and as a feedstock for the production of chlorinated chemicals.

What Men Live By, and Other Tales Simon and Schuster

Create your own quick and easy daily routine Declutter and organise your home without a fuss Create more time for loved ones Soothe your soul with a tidy and calming environment Never spend a weekend on chores again

*Clean My Space* Simon and Schuster

House cleaning has been an innate human activity forever but only since the early 19th century have mechanical devices replaced the physical labor (performed mostly by women). Mechanical carpet sweepers were replaced by manual suction cleaners, which in turn were replaced by electric vacuum cleaners in the early 20th century. Innovative inventors, who improved vacuum cleaners as electricity became commonly available, made these advances possible. Many early manufacturers failed, but some, such as Bissell, Hoover, Eureka and others, became household names as they competed for global dominance with improved features, performance and appearance. This book describes the fascinating people who made this possible, as well as the economic, cultural and technological contexts of their times. From obscure beginnings 200 years ago, vacuum cleaners have become an integral part of modern household culture.
