Cost accounting provides key data to managers for planning and controlling, as well as costing products, services, even customers. Cost Accounting, 16e focuses on how this discipline would help managers make better decisions, as cost accountants are increasingly becoming integral members of company's decision-making teams. In order to emphasize this prominence in decision making, the authors have used the 'different costs for different purposes' theme throughout this book. By focusing on basic concepts, analyses, uses and procedures instead of procedures alone, they have recognized cost accounting as a managerial tool for business strategy and Pearson Higher Education AU

Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future.
