Accounting CABI

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Hospitality management students and professionals responsible for accounting functions at their property, or who aspire to a career in hospitality accounting, will benefit from this textbook. This textbook includes everything readers will need to gain a clear understanding of managerial accounting in a hospitality setting. Chapters reflect new tax laws and the impact of the Sarbanes-Oxley Act, as well as the results of new survey research on updated practices in capital budgeting and leasing. Readers will learn to make effective choices based on the numbers that affect daily operations, develop on-target budgets and control cash flow, reach profit goals with the help of financial reports and other tools,

and apply the latest uniform systems of accounts for hotels and restaurants.

Basic Management Accounting for the Hospitality Industry Pearson Higher Education AU

This book describes the essential accounting for anyone in the hospitality industry, which includes hotels, restaurants, spas, and similar businesses. It familiarizes the accountant with basic concepts and then addresses the various types of financial statements and the accounting needed to construct them. More detailed accounting topics include payroll, fixed assets, and payables. There are also many managerial accounting topics, such as the construction of a budget, price formulation systems, cost-volume-profit analysis, and cash management. In short, the book prepares the accountant for any accounting issues likely to arise in the hospitality industry. *Managerial Accounting in the Hospitality Industry* John Wiley and Sons

A - Airports Routledge

The objective of this textbook is to teach students to be conversational in speaking "numbers." This means understanding fundamental accounting concepts, developing solid financial analysis abilities, and then applying them to understand and improve the operational performance of their hotel or restaurant. The book will accomplish this by studying the

Accounting and Financial Analysis in the Hospitality Industry Routledge

"Hospitality Finance and Accounting provides a uniquely concise, accessible and comprehensive introduction to hospitality, finance and accounting from a managerial perspective. By avoiding unnecessary jargon and focusing on the essentials, this book offers a crucial breakdown of this often overly-complex subject area. The concise chapters cover the essential concepts, ideas and formulas to be mastered within the hospitality industry including income statements, balance sheets, pricing, budgeting, as well as fundamental issues such as rooms pricing, portion control, portion cost, yield standards and breakeven analysis. Each chapter is

split into two sections; theory and practice, giving students practical insight into the everyday realities of the hospitality industry through case studies which show how theories are applied to a range of relevant scenarios. This will be an essential introductory yet practical resource for all Hospitality students and future managers within the industry"--
