Financial Management for Hospitality Decision Makers
Routledge

Previously published as Managerial Accounting in the Hotel and Catering Industry, this book has been substantially revised, expanded and updated in order to keep abreast of current accounting developments and their applications in the hotel, restaurant and catering industry.

Custom Pub for George Brown College Routledge
"Hospitality Finance and Accounting provides a uniquely concise, accessible and comprehensive introduction to hospitality, finance and accounting from a managerial perspective. By avoiding unnecessary jargon and focusing on the essentials, this book offers a crucial

breakdown of this often overly-complex subject area. The concise chapters cover the essential concepts, ideas and formulas to be mastered within the hospitality industry including income statements, balance sheets, pricing, budgeting, as well as fundamental issues such as rooms pricing, portion control, portion cost, yield standards and breakeven analysis. Each chapter is split into two sections; theory and practice, giving students practical insight into the everyday realities of the hospitality industry through case studies which show how theories are applied to a range of relevant scenarios. This will be an essential introductory yet practical resource for all Hospitality students and future managers within the industry"--

The objective of this textbook is to teach students to be conversational in speaking “ numbers. ” This means understanding fundamental accounting concepts, developing solid financial analysis abilities, and then applying them to understand and improve the operational performance of their hotel or restaurant. The book will accomplish this by studying the current practices of some of today ’ s leading hotel and restaurant companies.

Chapters will be developed under the auspices of a select group of hospitality industry General Managers, Directors of Finance, and Regional Accounting Managers to ensure that the information is current, accurate and useful. Understanding and applying the information will be the main focus of this book. This textbook should provide hospitality managers the

knowledge and experience to be comfortable in using numbers to operate their departments. This includes developing the ability to perform all accounting and financial aspects of their position efficiently and correctly including revenue forecasting, wage scheduling, budgeting, P&L critiques, purchasing procedures and cost control methods. As a result, they will have more time to spend on the floor with their customers and employees. This knowledge will help them understand their operations and how to improve, change or expand them to increase revenues or profits.
