Girls Get Curves

National Geographic Books
Learn at home with help from The Wonder Years/Hallmark actress, math whiz, and New York Times bestselling author Danica McKellar using her acclaimed Math books! Bathtime will be squeaky clean and sneaky smart in this follow-up to Bathtime Mathtime that gives your toddler a head start on learning their shapes, all as a part of your daily at-home routine! Bathtime, Mathtime 1, 2, 3. Want to find some shapes with me? Shapes are all around us--just scrub up and see!

Danica McKellar uses her proven math success to give toddlers a head start on learning their shapes in this squeaky-clean bathtime read-aloud that shapes up to be a tubful of math fun! Flying Free Penguin A thorough immersion into the world of scientifically accurate, three-dimensional, and artistically rendered natural botanical illustration. The step-by-step instructions in this invaluable guide, written by one of the nation's leading experts in the field, Wendy Hollender, will grow your artistic ability, whether

you're just broaching this unique skill or are already an expert. Each lesson in the book increases in complexity to build your skill set in a clear, concise, and accessible way. With a focus on the natural world through the botanical life-cycle, each project is not only a technical study, but a beautiful piece of artwork in and of itself. In this book, you will learn:

- Single light source toning technique
- Principles of perspective for drawing flowers
- The fundamentals of plant anatomy
- Colored pencil techniques and color

theory of the natural world
The Number Devil Macmillan
Learn at home with help from The Wonder Years/Hallmark actress, math whiz, and New York Times bestselling author Danica McKellar using her acclaimed McKellar Math books! Bathtime will be squeaky clean and sneaky smart fun in this original board book that gives your toddler a head start on learning math, all as part of your daily at-home routine! Take one

messy baby, two busy feet, three rambunctious friends, four wayward ducks, and five floaty bubbles--and get a tubful of fun as one family's bathtime routine turns into a nightly ritual they can "count on"! Danica McKellar uses her proven math success to show children that math is all around us as she cleverly introduces the early addition concept of "counting on"--the idea that when we add 1, we can get the answer by simply counting on to the next

number. This next book in the McKellar Math line shows that even washing your hair can be full of math fun!
Geometry DeMYSTiFieD, 2nd Edition
Houghton Mifflin Harcourt
Actress and New York Times bestselling author Danica McKellar tackles the most feared of all math classes--algebra--in this helpful algebra workbook that's perfect for high school math students.
Algebra: The word alone has

been known to strike fear in the hearts of even the best students, but help is here! With her two earlier books, *Math Doesn't Suck* and *Kiss My Math*, actress and math genius Danica McKellar shattered the "math nerd" stereotype and empowered girls to conquer middle-school math and pre-algebra. Sizzling with McKellar's trademark sass and style, *Hot X: Algebra Exposed* shows high schoolers how to master algebra topics like square roots,

polynomials, quadratic equations, word problems, and more. In addition to fun extras like personality quizzes, reader polls, and boy-crazy confessionals, *Hot X* includes:

- Time-saving tips and tricks
- Sample problems with detailed solutions
- Relatable real-world examples

Design in Nature

Harper Collins Fans of James Patterson's Middle School series will root for David as he goes from feeling as insignificant as a hamster

to becoming an Internet superstar. Perfect for back to school--no matter what that looks like! Eleven-year-old David Greenberg dreams of becoming a YouTube sensation and spends all of his time making hilarious Top 6½ Lists and Talk Time videos. But before he can get famous, he has to figure out a

way to deal with: 6. Middle school (much scarier than it sounds!) 5. His best friend gone girl-crazy 4. A runaway mom who has no phone! 3. The threat of a swirlie on his birthday 2. A terrifying cousin 1. His # 1 fan, Bubbe (his Jewish grandmother) 1/2. Did we mention Hammy, the hamster who's determined

to break David's heart? But when David's new best friend, Sophie, starts sending out the links to everyone she knows and her friends tell their friends, thousands of people start viewing his videos. Math Doesn't Suck Crown Books for Young Readers This title has been removed from sale by Penguin Group, USA. Basic Drawing Made Amazingly Easy Penguin UK Danica Mae McKellar (born January 3, 1975) is an American actress, academic, and education advocate. She is best known for her role as Winnie Cooper in the television show *The Wonder Years*, and later as the New York Times bestselling author of four popular non-fiction books: *Math Doesn't Suck*, *Kiss My Math*, *Hot X: Algebra Exposed* and *Girls Get Curves: Geometry Takes Shape*, which encourage middle-school and high-school girls to have confidence and succeed in mathematics.

*Botanical
Drawing in
Color* Penguin
The daughter
of a Chilean
father and a
Filipina
mother,
Cecilia
Rodriguez
Aragon grew up
as a shy,
timid child in
a small
midwestern
town during
the 1960s.
Targeted by
school bullies
and dismissed
by many of her
teachers, she
worried that
people would
find out the
truth: that

Incompetent.
Nerd.
Terrified.
Failure. This
feeling stayed
with her well
into her
twenties when
she was told
that "girls
can't do
science" or
"women just
don't know how
to handle
machines." Yet
in the span of
just six years,
Cecilia became
the first
Latina pilot to
secure a place
on the United
States
Unlimited
Aerobatic Team
and earn the
right to
represent her
country at the
Olympics of
aviation, the

World Aerobatic
Championships.
How did she do
it? Using
mathematical
techniques to
overcome her
fear, Cecilia
performed at
air shows in
front of
millions of
people. She
jumped out of
airplanes and
taught others
how to fly. She
learned how to
fund-raise and
earn money to
compete at the
world level.
She worked as a
test pilot and
contributed to
the design of
experimental
airplanes,
crafting curves
of metal and
fabric that
shaped air to
lift inanimate

objects high above the earth. And best of all, she surprised everyone by overcoming the prejudices people held about her because of her race and her gender. Flying Free is the story of how Cecilia Aragon broke free from expectations and rose above her own limits by combining her passion for flying with math and logic in unexpected ways. You don't have to be a math whiz or a science geek to learn from her story. You just have to want to soar.

Maths Doesn't Suck Watson-Guptill Shows how to master algebra topics like square roots, polynomials, quadratic equations, word problems, and more, with detailed solutions and relatable real-world examples.
