A Pulitzer Prize winner interviews workers,  
from policemen to piano tuners: "Magnificent .  
. . . To read it is to hear America talking." —The  
Boston Globe A National Book Award Finalist  
and New York Times bestseller Studs  
Terkel's classic oral history Working is a  
compelling look at jobs and the people who do  
them. Consisting of over one hundred  
interviews with everyone from a gravedigger  
to a studio head, this book provides a  
"brilliant" and enduring portrait of people's  
feelings about their working lives. This edition  
includes a new foreword by New York Times  
journalist Adam Cohen (Forbes). "Splendid . .  
. . Important . . . Rich and fascinating . . . The  
people we meet are not digits in a poll but real  
people with real names who share their  
anecdotes, adventures, and aspirations with  
us." —Business Week "The talk in Working is  
good talk—earthy, passionate, honest,  
sometimes tender, sometimes crisp, juicy as  
reality, seasoned with experience." —The  
Washington Post

The Major Appliance Service National Price Guide  
A proliferation of lawsuits involving sport utility  
vehicles, defective tires, medical devices and drugs,  
and asbestos abounds. Public attention to products  
liability cases is at an all-time high, and awards  
routinely run into the millions of dollars. When  
developing a strategy in this high stakes world,  
attorneys can't afford to have anything other than the  
best information and insight into this evolving area of  
law. Lawyers need practical tools to assess a products  
liability case's potential and build their approach,  
and Shapo on the Law of Products Liability provides  
the tools to give you the winning edge. Through a  
holistic analysis of the law and its principal  
developments as witnessed in hundreds of cases, this  
treatise gives litigators a wide variety of perspectives  
on potential strategies, and the tools to support those  
strategies with persuasive arguments. This  
authoritative two-volume work will enable you to:  
Assess products liability case potential and build  
sound litigation strategies Dig deep into products  
liability law to build creative approaches to litigation  
Craft a winning case and reap the greatest reward for  
your clients Find the tools and information to  
support strategies with persuasive arguments Both  
federal and state courts contribute a rich mix of  
decisions to products liability law, which covers both  
consumer products and occupational hazards. This  
indispensable resource for the products liability  
practitioner helps you prepare your case. Is the  
product defective? Who is liable? What is the  
manufacturer's responsibility? Who can be sued?  
What kind of awards may be realized? How might  
this be defended? Shapo on the Law of Products  
Liability also includes coverage of: Asbestos litigation  
Chinese drywall Food and drug Medical devices  
Design/manufacturing defects claims Punitive  
damages Discovery rule Up to date analysis and  
commentary History and background on products

liability law Damages Advertising material Packaging Marshall S. Shapo, the Frederic P. Vose Professor at Northwestern University School of Law, is a nationally recognized authority on torts and products liability law.

#### Popular Mechanics

This book contains peer-reviewed papers presented at the 10th International Conference on Energy Efficiency in Domestic Appliances and Lighting (EEDAL'19), held in Jinan, China from 6-8 November 2019. Energy efficiency helps to mitigate CO2 emissions and at the same time increases the security of energy supply.

Energy efficiency is recognized as the cleanest, quickest and cheapest energy source. Not only this, but energy efficiency brings several additional benefits for society and end-users, such as lower energy costs,

reduced local pollution, better outdoor and indoor air quality, etc. However, in some sectors, such as the residential sector, barriers to investments in energy efficiency remain. Legislation adopted in several jurisdictions (EU, Japan, USA, China, India, Australia, Brazil, etc.) helps in removing barriers and fosters investments in energy efficiency. These initiatives complement innovative financing schemes for energy efficiency, the provision of energy services by energy service companies and different types of information programs. At the same time, progress in appliance technologies and in solid state lighting offer high levels of efficiency. LED lighting is an example. As with previous conferences in this series, EEDAL ' 19 provided a unique forum to discuss and debate the latest developments in energy and environmental impact of households, including appliances, lighting, heating and cooling equipment, electronics, smart meters, consumer behavior, and policies and programs. EEDAL addressed non-technical issues such as consumer behavior, energy access in developing countries, and demand response.
