+ Planning Guide
Houghton Mifflin School
The new Houghton
Mifflin Math offers
teachers, students, and

parents research-based approaches in a highly accessible format so all students can reach grade-level success -- and beyond. High-interest activities engage students right from the start; Research-based lesson plans focus on best practices; Differentiated instruction addresses the needs of all learners; Technology tools for lesson planning, intervention, and assessment save valuable teaching time; Comprehensive package

of teaching resources provides everything needed for effective teaching. Provide effective instruction for all learners with these comprehensive teacher's editions, including customizable lessons, a four-step teaching plan, research-based strategies, point-of use intervention, and built-in daily test prep. - Publisher. Math Expressions, Grade 3 Houghton Mifflin GO Math! offers an engaging and interactive approach to

covering the Common Core State Standards. This Grade 3 student edition is organized into individual chapter booklets and comes with a student resource book. Grade 3 Go Math! Singapore Math creates a deep understanding of each key math concept, includes an introduction explaining the Singapore Math method, is a direct complement to the current textbooks used in Singapore, and includes step-by-step solutions in the answer key. Singapore Math, for students in grades 2 to 5, provides math practice while developing

analytical and problem-solving skills. This series is correlated to Singapore Math textbooks and creates a deep understanding of each key math concept. Learning objectives are provided to identify what students should know after completing each unit, and assessments are included to ensure that learners obtain a thorough understanding of mathematical concepts. Perfect as a supplement to classroom work, these workbooks will boost confidence in problem-solving and critical-thinking skills!
