The Greatest Sea Novels and Tales of All Time beckons readers into the tumultuous and transformative world of maritime adventures, conjuring the vastness of the sea with its myriad of styles and narratives. This anthology showcases a kaleidoscopic range of literary craftsmanship, from the speculative science of Jules Verne to the romanticized wilderness of James Fenimore Cooper, and the psychological depths plumbed by Edgar Allan Poe. It represents a significant tableau of the sea as both a literal and metaphorical frontier, highlighting pivotal works that have shaped and reflected societal relations with the oceanic world. The authors featured within this collection, including luminaries like Herman Melville, Joseph Conrad, and Victor Hugo, bring a diversified palette of cultural backgrounds, personal histories, and narrative voices. Their contributions span several centuries and embody various literary movements, from Romanticism to Realism, each adding depth to the anthology's exploration of seafaring life. These writers collectively capture the allure, danger, and the stark reality of the sea, presenting a multifaceted portrait that resonates with historical maritime exploits and the universal human condition. This curated collection offers readers an unparalleled journey into the heart of seafaring lore and legend. Through its encompassing range of authors and themes, The Greatest Sea Novels and Tales of All Time

presents a unique opportunity to dive into the depths of human bravery, adventure, and reflection. It is an indispensable anthology for those captivated by the sea's mysteries, and a testament to the enduring fascination with exploring the unknown. Readers are encouraged to navigate through these storied waters, discovering along the way the rich tapestry of emotions and experiences that have been immortalized in maritime literature.

Because nature is so expansive and complex, so varied in its range of light, landscape painters often have to look further and more deeply to find form and structure, value patterns, and an organized arrangement of shapes. In *Landscape Painting*, Mitchell Albala shares his concepts and practices for translating nature's grandeur, complexity, and color dynamics into convincing representations of space and light. Concise, practical, and inspirational, *Landscape Painting* focuses on the greatest challenges for the landscape artist, such as:

- **Simplification and Massing:** Learn to reduce nature's complexity by looking beneath the surface of a subject to discover the form's basic masses and shapes.
- **Color and Light:** Explore color theory as it specifically applies to the landscape, and learn the various strategies painters use to capture the illusion of natural light.
- **Selection and Composition:** Learn to select wisely from nature's vast panorama. Albala shows you the essential cues to look for and how to find the most promising subject from a world of possibilities. The lessons in *Landscape Painting*—based on observation rather than imitation and applicable to both plein air and studio practice—are accompanied by painting examples, demonstrations, photographs, and diagrams. Illustrations draw from the work of more than 40 contemporary artists and such masters of landscape painting as John Constable, Sanford Gifford, and Claude Monet. Based on Albala's 25 years of experience and the proven methods taught at his successful plein air workshops, this in-depth guide to all aspects of landscape painting is a must-have for anyone getting started in the genre, as well as more experienced practitioners who want to hone their skills or learn new perspectives.

A New York Times Book Review Editors' Choice A Telegraph Editor's Choice An Evening Standard "Best Books about London" Selection In popular imagination, London is a city of fog. The classic London fogs, the thick yellow "pea-soupers," were born in the industrial age of the early nineteenth century. Christine L. Corton tells the story of these epic London fogs, their dangers and beauty, and their lasting effects on our culture and imagination. "Engrossing and magnificently researched...Corton's book combines meticulous social history with a wealth of eccentric detail. Thus we learn that London's ubiquitous plane trees were chosen for their shiny, fog-resistant foliage. And since Jack the Ripper actually went out to stalk his victims on fog-free nights, filmmakers had to fake the sort of dank, smoke-wreathed London scenes audiences craved. It's discoveries like these that make reading London Fog such an unusual, enthralling and enlightening experience." —Miranda Seymour, New York Times Book Review "Corton, clad in an overcoat, with a linklighter before her, takes us into the gloomier, long 19th century, where she revels in its Gothic grasp. Beautifully illustrated, London Fog delves fascinatingly into that swirling miasma." —Philip Hoare, New Statesman

Tomorrow, soldier. by Paul F. F. Hood is an autobiographical novel in four parts: Part

One, subtitled Gun Oil; Part Two, subtitled Perfect Proposal; Part Three, subtitled Himmler's Gas Station; and Part Four, subtitled Return of the 8017 Elite SS. The novel, set from the end of World War II through the onset of the Cold War until the beginning of the Korean War, chronicles one soldier's ongoing quest for a "normal" life. Instead, Paul F. Barker, an army Staff Sergeant, finds himself in the midst of a characteristically abnormal world in-between-the-wars. He struggles with the trauma of surviving and remembering wartime horrors as well as the effects of global espionage on his friendships, intimate relationships, and business dealings. There is nothing "normal" here, nothing is as it seems, not even Marlene Dietrich.

A Newbery Honor Book. Greta had always loved the fog—the soft gray mist that rolled in from the sea and drifted over the village. The fog seemed to have a secret to tell her. Then one day when Greta was walking in the woods and the mist was closing in, she saw the dark outline of a stone house against the spruce trees—a house where only an old cellar hole should have been. Then she saw a surrey come by, carrying a lady dressed in plum-colored silk. The woman beckoned for Greta to join her, and soon Greta found herself launched on an adventure that would take her back to a past that existed only through the magic of the fog.

A clever and whimsical environmental fable about a bird who is a human-watcher from a dynamic author-illustrator duo. Warble is a small yellow warbler who lives on the beautiful island of Icyland, where he pursues his hobby of human watching. But on a warm day, a deep fog rolls in and obscures his view. The rest of the birds don't seem to notice the fog or the other changes Warble observes on the island. The more the fog is ignored, the more it spreads. When a Red-hooded Spectacled Female (Juvenile) appears, Warble discovers that he's not the only one who notices the fog. Will they be able to find others who can see it too? And is the fog here to stay? Kyo Maclear's witty story, brought to life with the delicate, misty artwork of Kenard Pak, is a poignant yet humorous reminder of the importance of environmental awareness.

A beautifully modulated novel that shows Edward St. Aubyn at his sparkling best Charlie Fairburn, successful screenwriter, ex-husband, and absent father, has been given six months to live. He resolves to stake half his fortune on a couple of turns of the roulette wheel and, to his agent's disgust, to write a novel-about death. In the casino he meets his muse. Charlie grows as addicted to writing fiction as she is to gambling. His novel is set on a train and involves a group of characters (familiar to readers of St. Aubyn's earlier work) who are locked in a debate about the nature of consciousness. As this train gets stuck at Didcot, and Charlie gets more passionately entangled with the dangerous Angelique, A Clue to the Exit comes to its startling climax. Exquisitely crafted, witty, and thoughtful, Edward St. Aubyn's dazzling novel probes the very heart of being.

Walter Benjamin was fascinated by the impact of new technology on culture, an interest that extended beyond his renowned critical essays. From 1927 to '33, he wrote and presented something in the region of eighty broadcasts using the new medium of radio. Radio Benjamin gathers the surviving transcripts, which appear here for the first time in English. This eclectic collection demonstrates the range of Benjamin's thinking and his enthusiasm for popular sensibilities. His celebrated "Enlightenment for Children" youth programs, his plays, readings, book reviews, and fiction reveal Benjamin in a creative, rather than critical, mode. They flesh out ideas elucidated in his essays, some of which are also represented here, where they cover topics as varied as getting a raise and the history of natural disasters, subjects chosen for broad appeal and examined with passion and acuity. Delightful and incisive, this is Walter Benjamin channeling his sophisticated thinking to a wide audience, allowing us to benefit from a new voice for one of the twentieth century's most respected thinkers.
