The Fog Ladies are back, in the third installment of this endearing cozy murder mystery series. "There was a man in the soup." When the Fog Ladies volunteer at a San Francisco soup kitchen, these spunky elderly friends plus one overworked young doctor-in-training envision washing and chopping and serving. Not murder. Now the soup kitchen is doomed, and the mysteries have just begun. Was the death rooted in a long-ago grudge? Can they save the soup kitchen? Will they find the killer? Could the Fog Ladies, too, end up "in the soup"?

'A brilliant new book.' Good Housekeeping 'Replete with research-based tips, this is a valuable resource for anyone wanting to know more about the difficulties of coping with brain fog.' Professor Shane O'Mara, Professor of Experimental Brain Research, Trinity College Dublin 'In this fascinating book neuroscientist Dr Sabina Brennan enters into a

world so many of us can relate to, yet few dare discuss. A must-read.' Dr Harry Barry, bestselling author of *Anxiety and Panic* and *Emotional Healing* 'A real game-changer. Finally a book that explains and recognises brain fog and that offers practical tips to deal with something that's very real for a lot of people. Do your brain a favour and read this book.' Dermot Whelan, comedian, television and radio presenter 'Sabina Brennan has skilfully translated the neuroscience of brain fog for the general reader. Having experienced brain fog myself, I found this book absolutely fascinating, insightful and really practical.' Sinead Moriarty, bestselling novelist If you complain of brain fog to a medical professional, you're likely to be told that it isn't a recognised condition. But if you mention brain fog to your friends, they'll know exactly what you mean: fuzzy thinking, trouble concentrating, a sense of grasping for the right word, feeling like your brain is somehow slowed down. In truth, brain fog is not a diagnosis in itself, but a sign that things aren't right in your body. In *Beating Brain Fog*, neuroscientist Dr Sabina Brennan guides us through the science to show how our brains work, and why we might experience confusion and anxiety. She offers tools to help you identify your own cognitive profile, determining the causes of your specific symptoms, and explains the simple strategies that can help you feel like yourself again. With brain fog now identified as one of the long-term effects of Covid-19, there has never been a more timely moment to tackle your symptoms, with Dr Brennan's unique 30-day plan. *Beating Brain Fog* takes your symptoms seriously, and shows that you don't have to live with them.

Young, overworked, overtired, overstressed medical intern Sarah James has no time for sleuthing. Her elderly neighbors, the spunky Fog Ladies, have nothing but time. When, one by one, old ladies die in their elegant apartment building in San Francisco, Sarah assumes it is the natural consequence of growing old. The Fog Ladies assume murder. Mrs. Bridge falls off a stool cleaning bugs out of her kitchen light. Mrs. Talwin hits her head in the bathtub and drowns. Suddenly, the Pacific Heights building is turning over tenants faster than the fog rolls in on a cool San Francisco evening. Sarah resists the Fog Ladies' perseverations. But when one of them falls down the stairs and tells Sarah she was pushed, even Sarah believes evil lurks in their building. Can they find the killer before they fall victim themselves?

Walter Benjamin was fascinated by the impact of new technology on culture, an interest that extended beyond his renowned critical essays. From 1927 to '33, he wrote and presented something in the region of eighty broadcasts using the new medium of radio. Radio Benjamin gathers the surviving transcripts, which appear here for the first time in English. This eclectic collection demonstrates the range of Benjamin's thinking and his enthusiasm for popular sensibilities. His celebrated "Enlightenment for Children" youth programs, his plays, readings, book reviews, and fiction reveal Benjamin in a creative, rather than critical, mode. They flesh out ideas elucidated in his essays, some of which are also represented here, where they cover topics as varied as getting a raise and the history of natural disasters, subjects chosen for broad appeal and examined with

passion and acuity. Delightful and incisive, this is Walter Benjamin channeling his sophisticated thinking to a wide audience, allowing us to benefit from a new voice for one of the twentieth century's most respected thinkers.

A clever and whimsical environmental fable about a bird who is a human-watcher from a dynamic author-illustrator duo. Warble is a small yellow warbler who lives on the beautiful island of Icyland, where he pursues his hobby of human watching. But on a warm day, a deep fog rolls in and obscures his view. The rest of the birds don't seem to notice the fog or the other changes Warble observes on the island. The more the fog is ignored, the more it spreads. When a Red-hooded Spectacled Female (Juvenile) appears, Warble discovers that he's not the only one who notices the fog. Will they be able to find others who can see it too? And is the fog here to stay? Kyo Maclear's witty story, brought to life with the delicate, misty artwork of Kenard Pak, is a poignant yet humorous reminder of the importance of environmental awareness.
