The Resonance Effect is both the author's story of her inspirational
journey of having the courage to find her true calling and an account of
the development of a remarkable newly rediscovered treatment, frequency
specific microcurrent (FSM), that takes advantage of the body's ability to
respond to frequencies in order to heal a number of chronic conditions.
Carolyn McMakin, a chiropractor specializing in fibromyalgia and myofascial
pain, describes her experience using a two-channel microcurrent device that
has achieved astounding results that have changed medicine and created new
possibilities for suffering patients over the past twenty years. Nerve
pain, fibromyalgia, diabetic neuropathies, muscle pain, athletic
performance, injury repair, joint pain, low back pain, neck pain, kidney
stone pain, the kidney stones themselves, liver disease, diabetic wounds,
brain and spinal cord injuries, PTSD, depression, shingles, asthma, ovarian
cysts, abdominal adhesions, and scarring all respond to specific
frequencies. McMakin explains that results are predictable, reproducible,
and teachable—all without side effects—offering hope and healing to
millions of people. McMakin tells the story of how thousands of patients
with conditions that did not respond to other medical therapies recovered
from pain and disability through the non-invasive treatment that she
developed. For example, asthma resolves with specific frequencies that
remove inflammation, allergy reaction, and spasm from the bronchi. One
frequency combination eliminates shingles pain in minutes and stops the
shingles attack with a single three-hour treatment. Since 2005, a series of
frequencies has been used to treat hundreds of PTSD patients. Post-surgical
patients use FSM to reduce pain, prevent bruising, and increase healing.
NFL, NHL, and Olympic athletes use it to heal injuries and improve
performance. McMakin includes case histories that illustrate the efficacy
of the treatment and shares the specific frequencies that each condition
requires so that patients direct their own treatments.
