You'll need to perform a spindown to calibrate your KICKR (as outlined in the section below) on first use and every 2 weeks after. It's important to update your KICKR as well by following these instructions. Select " Save device " and choose the workout profiles you would like the KICKR active for (ex. Indoor Cycling)

You do this by adding a cup or so of water to the inner pot (giving you a sense of where the fill line is, among other things), sealing the lid, and selecting a short cook time. Within five minutes, the water should heat up and build pressure, at which point the pressure is released via the natural method, or you can use the quick-release method.
