What happens when the pig goes cluck and the rooster goes cheep? The wind swirls through the farmyard one dark night. It tears around the farmyard, over the meadows, past the pond. It blows so hard and so long that all the animals howl, too. And in the sunny morning, the animals learn that the wind has played tricks on them. Pig goes, "Cluck!" Little Chicks go, "Neigh!" Hens go, "Moo!" Horse goes “ Cock-a-Doodle-Dooh!” Cow goes “ Quack! ” And Rooster—well, Rooster goes, “ Cheep! ” Can the animals work together to find a solution and get their right voices back?

Noah knew he was different. He could see things that others couldn't, like the patterns in the dust that floated down on sunbeams. Noah is different. He sees, hears, feels, and thinks in ways that other people don't always understand, and he asks a lot of questions along the way. Noah loves science, especially the weather. His books usually provide him with the answers he needs, until one day, there's one question they don't answer—and that is where Noah's windy adventure begins. Filled with rich, sweeping illustrations, this picture book celebrates the inquisitive nature of all children, including those on the autism spectrum, who cannot stop asking a question until an answer has been unearthed. The book contains a page of information for parents, caregivers, and educators about the importance of helping children feel good about their differences and know that being different is okay. Michelle Worthington was born in Brisbane, Queensland, and has lived there all her life. She is much-published author in Australia. Robinson Crusoe: The life & strange surprising adventures of Robinson Crusoe of York, mariner
Albert Whitman & Company

One of the best ways to understand history is through eye-witness accounts. Ting-Xing Ye’s riveting first book, A Leaf in the Bitter Wind, is a memoir of growing up in Maoist China. It was an astonishing coming of age through the turbulent years of the Cultural Revolution (1966 - 1974). In the wave of revolutionary fervour, peasants neglected their crops, exacerbating the widespread hunger. While Ting-Xing was a young girl in Shanghai, her father’s rubber factory was expropriated by the state, and he was demoted to a labourer. A botched operation left him paralyzed from the waist down, and his health deteriorated rapidly since a capitalist’s well-being was not a priority. He died soon after, and then Ting-Xing watched her mother’s struggle with poverty end in stomach cancer. By the time she was thirteen, Ting-Xing Ye was an orphan, entrusted with her brothers and sisters to her Great-Aunt, and on welfare. Still, the Red Guards punished the children for being born into the capitalist class. Schools were being closed; suicide was rampant; factories were abandoned for ideology; distrust of friends and neighbours flourished. Ting-Xing was sent to work on a distant northern prison farm at sixteen, and survived six

years of backbreaking labour and severe conditions. She was mentally tortured for weeks until she agreed to sign a false statement accusing friends of anti-state activities. Somehow finding the time to teach herself English, often by listening to the radio, she finally made it to Beijing University in 1974 as the Revolution was on the wane — though the acquisition of knowledge was still frowned upon as a bourgeois desire and study was discouraged. Readers have been stunned and moved by this simply narrated personal account of a 1984-style ideology-gone-mad, where any behaviour deemed to be bourgeois was persecuted with the ferocity and illogic of a witch trial, and where a change in politics could switch right to wrong in a moment. The story of both a nation and an individual, the book spans a heady 35 years of Ye’s life in China, until her eventual defection to Canada in 1987 — and the wonderful beginning of a romance with Canadian author William Bell. The book was published in 1997. The 1990s saw the publication of several memoirs by Chinese now settled in North America. Ye’s was not the first, yet earned a distinguished place as one of the most powerful, and the only such memoir written from Canada. It is the inspiring story of a woman refusing to “drift with the stream” and fighting her way through an impossible, unjust system. This compelling, heart-wrenching story has been published in Germany, Japan, the US, UK and Australia, where it went straight to #1 on the bestseller list and has been reprinted several times; Dutch, French and Turkish editions will appear in 2001.

“ Nature, rightly questioned, never lies. ” —A Manual of Scientific Enquiry, Third Edition, 1859 Scott Huler was working as a copy editor for a small publisher when he stumbled across the Beaufort Wind Scale in his Merriam Webster Collegiate Dictionary. It was one of those moments of discovery that writers live for. Written centuries ago, its 110 words launched Huler on a remarkable journey over land and sea into a fascinating world of explorers, mariners, scientists, and writers. After falling in love with what he decided was “ the best, clearest, and most vigorous piece of descriptive writing I had ever seen, ” Huler went in search of Admiral Francis Beaufort himself: hydrographer to the British Admiralty, man of science, and author—Huler assumed—of the Beaufort Wind Scale. But what Huler discovered is that the scale that carries Beaufort ’ s name has a long and complex evolution, and to properly understand it he had to keep reaching farther back in history, into the lives and works of figures from Daniel Defoe and Charles Darwin to Captains Bligh, of the Bounty, and Cook, of the Endeavor. As hydrographer to the British Admiralty it was Beaufort ’ s job to track the information that ships relied on: where to lay anchor, descriptions of ports, information about fortification, religion, and trade. But what came to fascinate Huler most about Beaufort was his obsession for observing things and communicating to others what the world looked like. Huler ’ s research landed him in one of the most fascinating and rich periods of history, because all around the world in the mid-eighteenth and nineteenth centuries, in a grand, expansive period, modern science was being invented every day. These scientific advancements encompassed not only vast leaps in understanding but also how scientific innovation was expressed and even organized, including such enduring developments as the scale Anders Celsius created to simplify how Gabriel Fahrenheit measured temperature; the French-designed metric system; and the Gregorian calendar adopted by France and Great Britain. To Huler, Beaufort came to embody that passion for scientific observation and categorization; indeed Beaufort became the great scientific networker of his time. It was he, for example, who was tapped to lead the search for a naturalist in the 1830s to accompany the crew of the Beagle; he recommended a young naturalist named Charles Darwin. Defining the Wind is a wonderfully readable, often humorous, and always rich story that is ultimately about how we observe the forces of nature and the world around us.

"Part primer, part parable, part elegy for the depth and decency we sacrifice daily to the order of self-possession, The Wind invites us to enjoy it inventively A philosopher coming up against the limits of philosophy's forms of communication ("Philosophy, without being in touch, is always abstract"), Bendik-Keymer courts a thoughtfulness in which wonder practically circumvents theory. Energized by "utopian anger,"

he invokes the clearing, shaking energies of wind against the violent social rigidities we accept as normal. The wind, impersonal, is the figure through which to keep the dynamic inter-personal in view. ... I admire this book's inventiveness, its willingness to break with discipline in pursuing a wider vision of accountability." (Sarah Gridley, author of "Weather Eye Open" and "Loom") A process begun in Pisa, Italy in April of 2016 during a workshop on political theory in the Anthropocene, The Wind An Unruly Living is a philosophical exercise (ask ê sis, translated, following Ignatius of Loyola, as "spiritual exercise"). In his exercise, Bendik-Keymer throws to the void: the ideology of self-ownership from a society of possession. By using the Stoic kan ô n, the rule of living by ph û sis, he follows an element. Unhappily for the Stoic and happily for us, the wind is unruly. A swerve of currents through a social fabric, it's full of holes, all holely. Stretch and stitch as you want, it might settle more shapely tattered into light, but it will never become whole. The wind's only holesome.

In the year 2036, much farmland has been lost due to higher temperatures; coastal flooding has uprooted thousands of families, creating 'the displaced'; environmental movements have become radicalized; and climate change has become the central topic in the presidential election. There are many issues, and the US is crying out for a leader who will give them hope. Dana Stein has created an exciting story line that weaves its way through the lives of a displaced farmer, a National Security Council staffer, and a college professor. Will these three individuals be able to come up with a plan to reverse the severe damage to the globe? Is it too late to squelch the Fire in the Wind?

Inspired by Beauty and the Beast and the myth of Hades and Persephone, this lush and enchanting enemies-to-lovers fantasy romance is perfect for fans of Sarah J. Maas, Jennifer L. Armentrout, and Scarlett St. Clair. Wren of Edgewood is no stranger to suffering. With her parents gone, it ’ s Wren ’ s responsibility to ensure she and her sister survive the harsh and endless winter, but if the legends are to be believed, their home may not be safe for much longer. For three hundred years, the land surrounding Edgewood has been encased in ice as the Shade, a magical barrier that protects the townsfolk from the Deadlands beyond, weakens. Only one thing can stop the Shade ’ s fall: the blood of a mortal woman bound in wedlock to the North Wind, a dangerous immortal whose heart is said to be as frigid as the land he rules. And the time has come to choose his bride. When the North Wind sets his eyes on Wren ’ s sister, Wren will do anything to save her—even if it means sacrificing herself in the process. But mortal or not, Wren won ’ t go down without a fight... The North Wind is a stand-alone, enemies-to-lovers slow-burn fantasy romance, the first in a series sprinkled with Greek mythology.

USA TODAY BESTSELLER “ Lt Colonel Dan Rooney is a true patriot who serves our country with courage and honor. ” —George H.W. Bush, 41st President of the United States F-16 fighter pilot, American hero, Folds of Honor founder, PGA professional, and inspirational family man Dan Rooney delivers a motivational code for living to help ordinary people ascend to their highest level in life. Part spiritual guide and part call-to-action, Fly Into the Wind combines Lt Colonel Rooney ’ s fighter pilot stories with his discovery of faith and purpose in order to help each reader achieve a philosophy he calls CAVU, after the Air Force acronym that stands for “ ceiling and visibility unrestricted. ” CAVU describes the perfect conditions for flying a fighter jet, when steel-blue skies invite pilots to spread their wings like supersonic eagles. In today ’ s world of identity politics, fractured racial relations, and external turmoil, Rooney ’ s book will show how all of us are connected by God in more ways than we realize, and that the path to fulfillment begins with changing ourselves in order to better one another. From the outside, Lieutenant Colonel Dan “ Noonan ” Rooney was living the American Dream: he was an F-16 fighter pilot, PGA Professional, husband to his college sweetheart, and father of five daughters. His position in life should have been a blessing. But a near-tragic mishap while piloting his F-16 triggered an ominous life storm that altered his trajectory and filled him with self-doubt. Realizing that a jet takes off into the wind because it requires resistance over its wings to fly, Lt Colonel Rooney ’ s attitude toward the resistance he encountered in his life changed from resentment to

humble introspection. Hyper-focused on the precise areas that are immediately under your control, CAVU is a disciplined approach to each day that will help you reshape, motivate, prioritize, and ultimately thrive. In Fly Into the Wind, Lt. Colonel Rooney breaks down CAVU into ten unique lines of effort (LOE), with each LOE building upon the previous one to provide a positive vector toward a new way of living. Along this enlightened path, readers will discover a renewed belief in themselves and the art of the possible. The time for self-discovery and ultimate achievement begins now.

New York Times bestselling author Rainbow Rowell's epic fantasy, the Simon Snow trilogy, concludes with Any Way the Wind Blows. In Carry On, Simon Snow and his friends realized that everything they thought they understood about the world might be wrong. And in Wayward Son, they wondered whether everything they understood about themselves might be wrong. Now, Simon and Baz and Penelope and Agatha must decide how to move forward. For Simon, that means choosing whether he still wants to be part of the World of Mages — and if he doesn't, what does that mean for his relationship with Baz? Meanwhile Baz is bouncing between two family crises and not finding any time to talk to anyone about his newfound vampire knowledge. Penelope would love to help, but she's smuggled an American Normal into London, and now she isn't sure what to do with him. And Agatha? Well, Agatha Wellbelove has had enough. Any Way the Wind Blows takes the gang back to England, back to Watford, and back to their families for their longest and most emotionally wrenching adventure yet. This book is a finale. It tells secrets and answers questions and lays ghosts to rest. The Simon Snow Trilogy was conceived as a book about Chosen One stories; Any Way the Wind Blows is an ending about endings—about catharsis and closure, and how we choose to move on from the traumas and triumphs that try to define us.
