How Important Is Screen Resolution

The importance of resolution [Read-Only]

Screen Size: in general a laptop screen is around 15" to 17" measured diagonally from corner to corner. You get smaller as well as larger also, but that's the "normal" sized laptop. Resolution: Full HD means the 1920 x 1080 pixels are then spread across that screen size. So the larger the screen the larger the pixels.

Print Resolution: What Is It And Why Is It So Important ...

There is also another important property of display which is the resolution. Resolution refers to size of the display in terms of pixels. E.g. Resolution of 800 x 600 pixels means that there are 800 pixels horizontally and 600 pixels vertically. So therefore there are a total of 480000 pixel in the display.
