Pitt Ford's Problem-Based Learning in Endodontology combines the theory and practice of endodontics, providing the reader with information that is both clinically relevant to everyday practice and also evidence based. It includes a wealth of cases that span topics such as the maintenance of a vital pulp, root canal treatment, surgical endodontics and trauma. Each case is accompanied by full colour photographs and/or radiographs that illustrate the key stages in diagnosis, treatment planning, treatment and prognosis. In addition, the detailed commentary provides information on viable alternative treatment strategies, rationale (biologic considerations) for the treatment described, evaluation of the current evidence for/against the course of treatment and finally the prognosis. The book allows the reader to apply their existing knowledge to a range of clinical scenarios and to gain new knowledge and apply it to further clinical situations. In addition the reader will be encouraged to transfer knowledge and diagnostic skills from one problem to another and guided to improve their self-directed learning and reflective skills.

Volume IV of the Collected Works of John Ford is the first of two volumes in the series to contain his sole-authored plays. It contains three of his most celebrated plays: 'Tis Pity She's a Whore (1622), The Lovers' Melancholy (1628), and The Broken Heart (1629), as well as the less well-known The Queen (1629). The volume opens with a general introduction to Ford's work as a sole author by Sir Brian Vickers and each play is given a detailed introduction emphasizing Ford's linguistic creativity and his effective use of the indoor private theatres. Authoritative old-spelling texts, freshly edited from the original quartos with full textual collations, are accompanied by a full commentary on all aspects of the plays, from archaic or obsolete words to classical allusions and historical references to people, places, and social customs.

The great director John Ford (1894-1973) is best known for classic westerns, but his body of work encompasses much more than this single genre. Jeffrey Richards develops and broadens our understanding of Ford's film-making oeuvre by studying his non-Western films through the lens of Ford's life and abiding preoccupations. Ford's other cinematic worlds included Ireland, the Family, Catholicism, War and the Sea, which share with his westerns the recurrent themes of memory and loss, the plight of outsiders and the tragedy of family breakup. Richards' revisionist study both provides new insights into familiar films such as The Fugitive (1947); The Quiet Man (1952), Gideon's Way and The Informer (1935) and reclaims neglected masterpieces, among them Wee Willie Winkie (1937) and the extraordinary The Long Voyage Home. (1940).

The controversial British writer Ford Madox Ford (1873-1939) is increasingly recognized as a major presence in early twentieth-century literature. This series of International Ford Madox Ford Studies was founded to reflect the recent resurgence of interest in him. Each volume is based upon a particular theme or issue; and relates aspects of Ford ' s work, life, and contacts, to broader concerns of his time. Ford is best-known for his fiction, especially The Good Soldier, long considered a modernist masterpiece; and Parade ' s End, which Anthony Burgess described as ' the finest novel about the First World War ' ; and Samuel Hynes has called ' the greatest war novel ever written by an Englishman ' . After the war Ford moved to France, beginning Parade ' s End on the Riviera, founding the transatlantic review in Paris, taking on Hemingway as a sub-editor, discovering another generation of Modernists such as Jean Rhys and Basil Bunting, and publishing them alongside James Joyce and Gertrude Stein. From the late 1920s he spent more time in his beloved Provence, where he took a house with the painter Janice Biala. The present volume, combining contributions from eighteen British, French and American experts on Ford, and Modernism, has two

connected sections. The first, on Ford ' s engagement with France and French culture, is introduced by an essay by Ford himself, written in French, about France, and republished and also translated here for the first time; and includes an essay on literary Paris of the 1920s by the leading biographer Hermione Lee. The second, on Ford and Provence, is introduced in an essay by the novelist Julian Barnes, and includes a selection of previously unpublished letters from Janice Biala about her life with Ford in Provence. The volume also contains 16 pages of illustrations, including previously unseen photographs of Ford and Biala, and reproductions of Biala ' s paintings and drawings of Provence.

Captures the multiple voices of Christian theology in a diverse and interconnected world through in-depth studies of representative figures and overviews of key movements Providing an unparalleled overview of the subject, The Modern Theologians provides an indispensable guide to the diverse approaches and perspectives within Christian theology from the early twentieth century to the present. Each chapter is written by a leading scholar and explores the development and trajectory of modern theology while presenting critical accounts of a broad range of relevant topics and representative thinkers. The fourth edition of The Modern Theologians is fully updated to provide readers with a clear picture of the broad spectrum and core concerns of modern Christian theology worldwide. It offers new perspectives on key twentieth-century figures and movements from different geographical and ecclesial contexts. There are expanded sections on theological dialogue with non-Christian traditions, and on Christian theology's engagement with the arts and sciences. A new section explores theological responses to urgent global challenges - such as nationalism, racism, and the environmental crisis. Providing the next generation of theologians with the tools needed to take theological conversations forward, The Modern Theologians: Explores Christian theology's engagement with multiple ways of knowing across diverse approaches and traditions Combines introductions to key modern theologians and coverage of the major movements within contemporary theology Identifies common dynamics found across theologies to enable cross-contextual comparisons Positions individual theologians in geographical regions, trans-local movements, and ecclesial contexts Features new and revised chapters written by experts in particular movements, topics, and individuals Providing in-depth critical evaluation and extensive references to further readings and research, Ford's The Modern Theologians: An Introduction to Christian Theology since 1918, Fourth Edition, remains an ideal textbook for undergraduate and graduate courses in Theology and Religious Studies, such as Introduction to Christian Theology, Systematic Theology, Modern Theology, and Modern Theologians. It is also an invaluable resource for researchers, those involved in various forms of Christian ministry, teachers of religious studies, and general readers engaged in independent study.

Over the course of performance car history, and specifically muscle car history, big-block engines are particularly beloved, and for good reason. Not only are they the essence of what a muscle car is, but before modern technology and stroker engines, they were also the best way to make a lot of horsepower. All of the Detroit manufacturers had their versions of big-block engines, and Ford was no exception. Actually, Ford was somewhat unique in that it had two very different big-block engine designs during the muscle car era. The FE engine was a design pioneered in the late 1950s, primarily as a more powerful replacement for the dated Y-block design because cars were becoming bigger and heavier, and therefore, necessitated more power to move. What started as torquey engines meant to move heavyweight sedans morphed into screaming high-performance mills that won Le Mans and drag racing championships through the 1960s. By the late 1960s, the design was dated, so Ford replaced the FE design with the "385" series, also known as the "Lima" design, which was more similar to the canted-valve Cleveland design being pioneered at the same time. It didn't share the 1960s pedigree of racing success, but the new design was better in almost every way; it exists via Ford motorsports offerings to this day. In Ford Big-Block Parts Interchange, Ford expert and historian George Reid covers both engines completely. Interchange and availability for all engine components are covered including cranks, rods, pistons, camshafts, engine blocks, intake and exhaust manifolds, carburetors, distributors, and more. Expanding from the previous edition
