Sartwell presents an extreme and provocative philosophy of life. He explores what happens if we love this world precisely as it is, with all of its pain, with all of its evil, with all of its bizarre and arbitrary and monstrous thereness. In a highly personal and brutally direct style, Sartwell explores the themes of transgressive sexuality, political anarchism, addiction, death, and embodiment. The author engages contemporary and historical debates in cultural criticism, metaphysics, ethics, and political philosophy, and expresses deep suspicions about them. He asserts that scientific philosophical conceptualization is a movement toward death, a rejection of reality. The author engages contemporary and historical debates in cultural criticism, metaphysics, ethics, and political philosophy, and expresses deep suspicions about them. He asserts that scientific philosophical conceptualization is a movement toward death, a rejection of reality. Moral and political values—the ethical rejection of the particular precisely from within the particular—are, Sartwell claims, an assault on human authenticity. Thus, transgression—which is described as the affirmation of embodiment through obscenity—is something we radically require.

studies of contemporary drama. *Love in Contemporary British Drama* reflects the appeal of love as a topic and driving force in dramatic works with in-depth analyses of eight pivotal plays from the past three decades. Following an interdisciplinary and historical approach, the study collects and condenses theories of love from philosophy and sociology to derive persisting discourses and to examine their reoccurrence and transformation in contemporary plays. Special emphasis is put on narratives of love's compensatory function and precariousness and on how modifications of these narratives epitomise the peculiarities of emotional life in the social and cultural context of the present. Based on the assumption that drama is especially inclined to draw on shared narratives for representations of love, the book demonstrates that love is both a window to remnants of the past in the present and a proper subject matter for drama in times in which the suitability of the dramatic form has been questioned.

"You will find my story is a lot like pie, a strawberry-rhubarb pie. It's bitter. It's messy. It's got some sweetness, too. Sometimes the ingredients get added in the wrong order, but it has substance, it will warm your insides, and even though it isn't perfect, it still turns out okay in the end." When journalist Beth M. Howard's young husband dies suddenly, she packs up the RV he left behind and hits the American highways. At every stop along the way—whether filming a documentary or handing out free slices on the streets of Los Angeles—Beth uses pie as a way to find purpose. Howard eventually returns to her Iowa roots and creates the perfect synergy between two of America's greatest icons—pie and the American Gothic House, the little farmhouse immortalized in Grant Wood's

famous painting, where she now lives and runs the Pitchfork Pie Stand. *Making Piece* powerfully shows how one courageous woman triumphs over tragedy. This beautifully written memoir is, ultimately, about hope. It's about the journey of healing and recovery, of facing fears, finding meaning in life again, and moving forward with purpose and, eventually, joy. It's about the nourishment of the heart and soul that comes from the simple act of giving to others, like baking a homemade pie and sharing it with someone whose pain is even greater than your own. And it tells of the role of fate, second chances and the strength found in community.

Stories about dragons, serpents, and their slayers make up a rich and varied tradition within ancient mythology and folklore. In this sourcebook, Daniel Ogden presents a comprehensive and easily accessible collection of dragon myths from Greek, Roman, and early Christian sources. Some of the dragons featured are well known: the Hydra, slain by Heracles; the Dragon of Colchis, the guardian of the golden fleece overcome by Jason and Medea; and the great sea-serpent from which Perseus rescues Andromeda. But the less well known dragons are often equally enthralling, like the Dragon of Thespieae, which Menestratus slays by feeding himself to it in armor covered in fish-hooks, or the lamias of Libya, who entice young men into their striking-range by wiggling their tails, shaped like beautiful women, at

them. The texts are arranged in such a way as to allow readers to witness the continuity of and evolution in dragon stories between the Classical and Christian worlds, and to understand the genesis of saintly dragon-slaying stories of the sort now characteristically associated with St George, whose earliest dragon-fight concludes the volume. All texts, a considerable number of which have not previously been available in English, are offered in new translations and accompanied by lucid commentaries that place the source-passages into their mythical, folkloric, literary, and cultural contexts. A sampling of the ancient iconography of dragons and an appendix on dragon slaying myths from the ancient Near East and India, particularly those with a bearing upon the Greco-Roman material, are also included. This volume promises to be the most authoritative sourcebook on this perennially fascinating and influential body of ancient myth.

moral education and citizenship education in the past few decades. He shows that there are different orientations in national and global moral education and citizenship education. He criticises the strong orientation on the individual and on adaptation, and argues for more emphasises on social justice, equity and democracy. This volume brings together articles Veugelers published in the past 25 years. Each article is introduced by a reflection on the reasons for the article, its responses, and lessons that are still relevant. The book ends with a large chapter that overviews central developments and presents a programme for future theory, research, policy and practice in moral education and citizenship education with a strong focus on democracy and empowerment: the moral should become more political and the political more moral.

'The definitive look at dance music and club culture - a must read' - Paul Oakenfold 'Brilliantly woven collection of aural histories ... a damn fine read' - DJ MAG In 1987, four friends from London, Paul Oakenfold, Danny Rampling, Nicky Holloway and Johnny Walker, took a week-long holiday to Ibiza. What they saw there, and brought back home, would give rise to a new global music and counterculture movement. As the eighties drew to their close, with Thatcherism holding the nation tight in its grip, something funny was happening right across the jungle of Britain's nightlife scene. People were dressing down, not up, to go to clubs. And they were dancing right through the night armed seemingly with only bottles of water. Ecstasy and acid house music had arrived on British shores, and a tribal battle between for the moral future of the nation, between the youth and the establishment, had begun. In *The Second Summer of Love*, author and dance music promoter Alon Shulman uses exclusive contributions from the world's biggest DJs, including Paul Oakenfold, Carl Cox, Fatboy Slim, Moby, Faithless, Mr

Complete with stunning unseen photographs, this is the first authentic account of what really happened in that glorious period - from the politics and the people to the music, the drugs, the fashion and the culture - told by people who were there, as they bring to life the creation of an underground scene which inadvertently altered the course of modern global youth culture forever. The Radicality of Love Hardie Grant

What would happen if we could stroll through the revolutionary history of the 20th century and, without any fear of the possible responses, ask the main protagonists - from Lenin to Che Guevara, from Alexandra Kollontai to Ulrike Meinhof - seemingly naïve questions about love? Although all important political and social changes of the 20th century included heated debates on the role of love, it seems that in the 21st century of new technologies of the self (Grindr, Tinder, online dating, etc.) we are faced with a hyperinflation of sex, not love. going back to the sexual revolution of the October Revolution and its subsequent repression, to Che's dilemma between love and revolutionary commitment and to the period of '68 (from communes to terrorism) and its commodification in late capitalism, the Croatian philosopher Srećko Horvat gives a possible answer to the question of why it is that the most radical revolutionaries like Lenin or Che were scared of the radicality of love. What is so radical about a seemingly conservative notion of love and why is it anything but conservative? This short book is a modest contribution to the current upheavals around the world - from Tahrir to Taksim, from Occupy Wall Street to Hong Kong, from Athens to Sarajevo - in which the question of love is curiously, surprisingly, absent.

Love has the power to transform us In the words of Mother Teresa, "We have forgotten that we belong to each other." This lapse in memory has caused deep fractures and allowed fear, hatred, and division to infect our lives together. We've

become disconnected from each other and from our very selves. In *Love Big*, leadership coach Rozella Hayde White introduces readers to the power of revolutionary relationships. Modeled after the image of God as a lover, these relationships can heal the brokenness of our lives by crossing over the dividing lines of race, gender, religion, orientation, ability, identity, and class to provide relief and inspiration.

Revolutionary relationships will usher us into a reality marked by love, connection, and a belief in abundance. Revolutionary relationships lead us to love big--to love despite hardships and fear; to love in the face of despair; to love ourselves and others deeply and passionately; to love in ways that change us all.

Grounded in Christian love mysticism, *Love's Oneness* gives voice to the luminous consciousness that awakens from within our oneness in God in contemplation. With great sensitivity, the book offers nuanced insight into the marriage of kenosis and desire in contemplation, through the rich tapestry of writings from nine mystics: Julian of Norwich, the Cloud of Unknowing author, Meister Eckhart, Mechthild of Magdeburg, Clare of Assisi, John of the Cross, Teilhard de Chardin, Beatrice Bruteau and Ilia Delio. With the delicate eye of a spiritual director immersed in mystical literature, Kerrie Hide situates these mystical teachings within contemplative prayer, whilst offering a scholarly exploration of contemplative practice to embody the insights. Deeply grounded in traditional and contemporary mystical classics, Hide celebrates how the Christian mystical tradition lays a foundation for the evolutionary growth of communion consciousness and the insights of quantum science, highlighting key moments in contemplation that when surrendered into, open into divine love. Born of intellectual reflection, lived experience and

contemplative wisdom, Love ' s Oneing makes a unique contribution to the existing literature on contemplation at a time when the recovery of the mystical dimension of life is crucial for the future of our planet in this climate crisis moment.
