Scholarship Strategies empowers students to be uniquely proactive towards their scholarship search process, enabling them to find more scholarships than with the traditional approach through the guidance and college offices at their schools. The current approach to finding scholarships to reduce college costs is not giving families the results they need. College costs continue to rise and so does student loan debt. As

A different approach is needed to provide families with different results. In *Scholarship Strategies*, Jean simplifies the scholarship application process in easy-to-follow steps which any student can incorporate into their already busy schedules. She provides students and parents with a clear plan to decipher which scholarships have the best chances of winning and should be applied to. This easy-to-follow, out-of-the-box approach was developed over a decade of working with thousands of students, giving students and families ownership of the scholarship search process to build on the efforts that their school counselors are already providing. A future can be designed without college debt, and *Scholarship Strategies* with its 25 clear strategies, along with 15 additional ways to reduce college costs, helps students live that future.

Guidance for students applying for national scholarships Nationally competitive scholarship programs attract thousands of applicants every year for a relatively small number of awards. Providing informed and dedicated support to applicants is the critical and fundamental goal of the National Association of Fellowships Advisors (NAFA). The thirteen essays in this volume are a direct result of the 2005 NAFA conference held in Louisville. Contributors include both scholarship advisors and representatives of the Truman and Marshall foundations as well as the former executive director of the US-UK Fulbright Commission. These essays provide practical information ranging from helping faculty write persuasive letters of recommendation to serving international students effectively to negotiating the British and Irish high-educational systems. In addition to providing the students with useful tips, these essays also reflect on the broader impact of the application process. They address the successes of students who do not win as well as the public-service involvement of those who do as they give back to their campus, local, and global communities.
