Remove the bolts and move back to the engine bay. On the front of the housing, three 8mm bolts secure the oil dipstick tube and a bracket to the housing. Remove the bolts and move the dipstick tube aside. <b>How to remove / replace the headlining on Volvo S40 / V40 ...</b> For automatic S40/V50s, they officially recommend	inspecting the transmission fluid every 15,000 miles (every other oil change) to see if it needs to be replaced, up to 90k miles. Beyond 90k, Volvo refers readers to their "Warranty and Service Records Information Booklet" for more info, but that can be a rather elusive item considering the newest of the Volvo P1 generation S40/V50s are ... <b>Suzuki</b>
