A devoted employee of the FIA (Federal Intelligence Agency), Eurian lives a comfortable and secure life, spanned with bureaucratic conflicts and desires for promotion. He will find himself thrust into an international conflict to track down and stop a subversive cyberterrorist movement. His desire for a foreign assignment will finally be met, but not in the way he expected. Assigned to Kerploueck, a sleepy village at the far edge of the world, he will be forced to let go of the comfort and stability of his previous lifestyle. With this temporary assignment, the complacent bureaucrat finds himself a spy-but with none of the excitement and adventure he had dreamed of. He now must find new objectives to survive this wholly uninteresting assignment. What happens to the FIA and to the success of the

worldwide search for the subversive cyber-terrorists will slowly drift away from Eurian's mind.

Interestingly enough, when this book was started, internet spying, hacking, and cyberterrorism were rhetorical discussions. Today, we live in a different reality. Truth and facts are not as important as swaying unmindful, gullible populations. George Orwell's "alternative facts" are common place and universally acceptable. With the ocean of information now accessible to anyone, individuals, organizations, and even governments are scrambling to control its sources and promulgate their agendas. This is the essence of "The Happy Fools." Following Eurian and his unanticipated quest for truth, many topics of modern society will be discussed. This book also serves as a compendium of the latest technologies, sciences, ideas and movements. Focusing primarily on the most pertinent latest developments, each providing hope and insights that could change

our lives. The underlying prerequisite of being happy is to avoid stress and the unknown. Therein lies a potential philosophical issue. Shutting the doors to outside turmoil, to world problems and issues, is a good safeguard for happiness. Close-mindedness brings confidence, as the world's problems appear simple and the solutions two-sided. Inversely, knowledge creates a spirit of inquiry, a burning desire for more knowledge, spurring new questions that beg for answers, ultimately resulting in a loss of conviction and an understanding that we will never truly understand the world in its endless complexities. Do we choose closed-minded confidence, or a life dedicated to the pursuit of knowledge with the uncertainties, frustrations, and complexities that it yields?

You Are Not In Control According to research, 99% of the thoughts,

emotions and actions you had today are the same as the ones you had yesterday. We simply repeat things unconsciously. We think we're in control but we really are not. Our programming simply repeats things daily. You cannot fight this programming with willpower. You need to consciously reprogram it with new routines so that it works for you, rather than against you, in achieving your goals. External Results Are An Illusion. Change Yourself And Your External Results Change The default thing we try to do if we're not getting the external results we seek is to reach out and try to change the results, often without changing ourselves. Striving to create an external result that is not in alignment with who you currently are internally is really a case of chasing shadows. The reality is that the external world you see is simply a reflection of your state of consciousness. The only way to change your external world is to change yourself internally. So for the external changes you want to see in your life you

need to first detail out the external goals, and then map them to internal changes you need to make in order to achieve them. With this shift in thinking, there is no need for you to get anxious about making external changes that are outside your control. You just need to focus on making the required internal changes as internal change is all within your control. Your External World Is Simply A Mirror Of You It can be difficult for you to really see yourself due to the multitude of smokescreens and the fact we humans are masters at self-deception. However an accurate way of seeing yourself is in your external circumstances. External reality acts as a mirror to enable us see what's really going on inside. This is good news because when you become aware of this law you realise all the power to change your reality lies within you. The reflection never lies, just as you cannot stand in front of a physical mirror and see a different person in your reflection. The law of correspondence is as real as gravity. Growth Is All That Matters Growth is

what matters in life, not the material things we acquire. Material things can disappear in a flash but growth remains forever. If you don't try new things and deal with whatever learning curve is required then you don't grow. In This Book You'll Learn: The difference between the ego and consciousness and the role of the ego in shaping your life. How to use challenges in life as welcome tools to create a better version of yourself instead of seeing them as bad. How to use the Law of Correspondence which is always in operation in your life whether you're aware of it or not. How to transform yourself to the person who can automatically get the kind of results you want in life. How to use the power of delayed gratification to make your life easier. A step by step guide for how to create and instil positive habits and make them effortless within 30 days. "If you are looking to understand a bit more about the circumstances that inspired The Adventures of Tintin—this book will provide a good snapshot." —The BookBuff Review Hergé created only twenty-four Tintin books which have been translated into more than seventy languages and sold 230 million copies worldwide. The Real Hergé: The Inspiration Behind

Tintin takes an in-depth look at the man behind the cultural phenomenon and the history that helped shape these books. As well as focusing on the controversies that engulfed Hergé, this biography will also look at his personal life, as well as the relationships and experiences that influenced him. "Tintin is more famous now than when Hergé was actually writing and illustrating his adventures. Sian Mye's book is another in the excellent series about the real lives of our most famous authors, and is well worth a look. Brilliant!" —Books Monthly "It is certainly possible to enjoy the Tintin books without knowing Hergé. But they are more interesting after learning about this complex, sometimes frustrating, man. In *Stop Sabotaging Your Life: 3 Steps To Your Full Potential*, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence. How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance

and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything that ails you. As he says, "There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether." What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: "As a divorced

mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that."—Cristina "The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes

---

authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential."

—Adrian "If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise, which is undoubtedly the key to

growth." —Blaine

When ancient gods ruled and Druids kept Faith alive, the Celts thrived as a democratic, matriarchal society. Then savage Roman soldiers swept across Europe, killing and enslaving. The Celts did not succumb without a fight. Their Old Ways survived centuries of ruthless domain until another menace loomed: a tortured god worshiped in cold stone buildings. The sacred shores of Avalon began to drift away, the mists threatened to hide the island from mortal eyes forever. Against the bleak backdrop of war, the gorgeous Scottish

Highlands stood tall, sheltering its inhabitants from greedy invaders. Yet the reach of the eagle banners was long and the highlanders turned to the Goddess for protection. However, the sacred groves felt silent and grim as Avalon faded away. Once sad, pealing bells began to sound strangely comforting while the high walls of monasteries offered an alluring barrier from violence. Caught in the middle of this centuries-old war, a young High Priestess might be Avalon's last chance. Wise beyond her years and powerful like no other Priestess in her lifetime, Rowen had served the Goddess faithfully, forsaking her family and the company of her soulmate. When the Lady of the Lake asks for another sacrifice, it might be one too many for her scarred heart. How could she obey the Goddess without betraying Caddaric? Could she trust Eochaid, who embodied everything she despised and hated? Would she be able to fulfill her duties without losing her soul? Caddaric had been Rowen's companion in

---

countless lives; but, now, they existed in different realms. Beautiful Rowen lived in the mortal world while sweet Caddaric remained in the sacred isle of Avalon, watching over her. Could he step aside to allow another man - a flesh and blood man - to become her protector? Eochaid had sworn to protect the Old Ways. The rude warrior never quite understood his faith yet his loyal heart belonged to the Goddess. A gorgeous, fiery High Priestess was not in his plans. He would risk his life to protect Rowen; but, would the Goddess safeguard his heart? Could he defend the bewitching maiden from himself? When stakes were so high that a simple mistake could cost their very world, a priestess, a Druid, and a warrior must learn to trust one another and the mysterious ways of the Goddess. Their success would save Avalon. Their failure would tear the island from the human realm forever, condemning it to oblivion. Failure was not an option. This is a standalone, historical/paranormal romance. Its mature

themes - sexual violence, religion, and pagan rituals - might not be appropriate for audiences under 18.

Best Book of 2020 "This hushed suspense tale about thwarted dreams of escape may be her best one yet...its own kind of masterpiece."

--Maureen Corrigan, The Washington Post A "taut, chiseled and propulsive" (Vogue) new novel from the bestselling mystery writer who

"is in a class by herself." (The New York Times) Cal Hooper thought a fixer-upper in a bucolic Irish village would be the perfect escape. After twenty-five years in the Chicago police force and a bruising divorce, he just wants to build a new life in a pretty spot with a good pub where nothing much happens. But when a local kid whose brother has gone missing arm-twists him into investigating, Cal uncovers layers of darkness beneath his picturesque retreat, and starts to realize that even small towns shelter dangerous secrets. "One of the greatest crime novelists writing today" (Vox) weaves a masterful, atmospheric tale of suspense, asking what we sacrifice in our search for truth and justice, and what we risk if we don't.
