Harvard Business Review Press

This is a compact but comprehensive guide to writing clearly and effectively in APA style. Demonstrates how to write objective scientific research papers using interesting prose Incorporates guidelines from the 6th edition of the APA publication manual Explores how to develop ideas, connect them to what others have written, and express them clearly Discusses the differences between

written, oral, and poster presentations and offers instructions for applying APA style to each

Let the Northern Lights Erase Your Name Boydell & Brewer

“Should be read by anyone interested in understanding the future,”

The Times Literary Supplement raved about the original edition of *The Social Life of Information*. We’re now living in that future, and one of the seminal books of the Internet Age is more relevant than ever. The future was a place where technology was supposed to empower individuals and obliterate social organizations. Pundits predicted that information technology would spell the end of almost everything—from mass media to bureaucracies, universities, politics, and governments. Clearly, we are not living in that future. *The Social Life of Information* explains why. John Seely Brown and Paul Duguid show us how to look beyond mere information to the social context that creates and gives meaning to it. Arguing elegantly for the important role that human sociability plays, even—perhaps especially—in the digital world, *The Social Life of Information* gives us an optimistic look beyond the simplicities of information and individuals. It shows how a better understanding of the contribution that communities, organizations, and institutions make to learning, working, and innovating can lead to the richest possible use of technology in our work and everyday lives. With a new introduction by David Weinberger and reflections by the authors on developments since the book’s first publication, this new edition is essential reading for anyone seeking to understand the human place in a digital world.

On the day of her father's funeral, twenty-eight-year-old Clarissa Iverton discovers that he wasn't her biological father after all. Her mother disappeared fourteen years earlier, and her fiancé has just revealed a life-changing secret to her. Alone and adrift, Clarissa travels to mystical Lapland, where she believes she'll meet her real father. There, at a hotel made of ice, Clarissa is confronted with the truth about her mother's history, and must make a decision about how—and where—to live the rest of her life.

Review of the World Bank's Recent Experience Candlewick Press

Get to know the sociopolitical context behind microaggressions
Microaggressions are brief, everyday exchanges that send denigrating messages to certain individuals because of their group membership (e.g., race, gender, culture, religion, social class, sexual orientation,

etc.). These daily, common manifestations of aggression leave many people feeling vulnerable, targeted, angry, and afraid. How has this become such a pervasive part of our social and political rhetoric, and what is the psychology behind it? In *Microaggression Theory*, the original research team that created the microaggressions taxonomy, Gina Torino, David Rivera, Christina Capodilupo, Kevin Nadal, and Derald Wing Sue, address these issues head-on in a fascinating work that explores the newest findings of microaggressions in their sociopolitical context. It delves into how the often invisible nature of this phenomenon prevents perpetrators from realizing and confronting their own complicity in creating psychological dilemmas for marginalized groups, and discusses how prejudice, privilege, safe spaces, and cultural appropriation have become themes in our contentious social and political discourse. Details the psychological effects of microaggressions in separate chapters covering clinical impact, trauma, related stress syndromes, and the effect on perpetrators Examines how microaggressions affect education, employment, health care, and the media Explores how social policies and practices can minimize the occurrence and impact of microaggressions in a range of environments Investigates how microaggressions relate to larger social movements If you come across the topic of microaggressions in your day-to-day life, you can keep the conversation going in a productive manner—with research to back it up!

6th edition SAGE

When Evan's father dies suddenly, he finds the book his father had been reading, a diary of a Japanese soldier stranded on a Pacific Island during World War II. There was also an American soldier stranded there.

Bedford/St. Martin's is pleased to offer Documenting Sources in APA Style: 2020 Update. This brief 48-page print supplement adapts guidelines from the recently released Publication Manual of the American Psychological Association, 7th Edition, and can be packaged at no additional cost with any Bedford text.

Students will appreciate the practical examples throughout; instructors will value the explanations designed to simplify citation practices. Contact your representative to learn more about packaging options.

Concise Rules of APA Style John Wiley & Sons

Poststructuralism changes the way we understand the relations between human beings, their culture, and the world. Following a brief account of the historical relationship between structuralism and poststructuralism, this Very Short Introduction traces the key arguments that have led poststructuralists to challenge traditional theories of language and culture. Whilst the author discusses such well-known figures as Barthes, Foucault, Derrida, and Lacan, she also draws pertinent examples from literature, art, film, and popular culture, unfolding the poststructuralist account of what it means to be a human being. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject

area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Suggestions to Medical Authors and A.M.A. Style Book ASCD

#1 NATIONAL BESTSELLER • "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances

objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters—a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."

APA Style Simplified Anchor

Now more than ever, freedom is lost through computers, mobile devices and even household goods...Under Constant Supervision is a fact-driven exposé on the realities of the global surveillance in operation for decades by our governments and the technology companies we rely on. With justifications like national security, online safety, copyright protection and health; honest citizens, many unwittingly or unknowingly, are victims of mass data harvesting with every purchase or registration leading to the sale of their personal liberty and information. Featuring locations of surveillance stations, photographs, leaked documents and interviews; Under Constant Supervision is a thoroughly researched and comprehensive look at what goes on behind the scenes and how it has evolved into one of the largest - yet almost unstoppable - effects of the modern world. BookRefine Publishing has also published the entire repository of leaks, high-definition photos and satellite images as well as archived news article mirrors on GitHub for readers to absorb.

A Guide to Academic Publishing Success Harper Collins

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed

and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Milkman Simon and Schuster

What is the nature of law as a form of social order? What bearing do values like justice, human rights, and the rule of law have on law? Which values should law serve, and what limits must it respect in serving them? Are we always morally bound to obey the law? What are the philosophical problems that arise in specific areas of law, from criminal and tort law to contract law and public international law? The book provides an accessible, comprehensive, and high quality introduction to the major themes of legal philosophy written by a stellar international cast of contributors, including John Finnis, Martha Nussbaum, Fred Schauer, Onora O'Neill and Antony Duff. The volume is an exceptional teaching tool that provides a critical introduction to cutting-edge work in the philosophy of law.
