How To Get Document Out

If the cancellation was successful, the document should disappear from the print queue and the printer will start printing the next document in line. If the document didn't get

anceled at all—or if the document did get canceled but printing is still not happening—you'll need to try canceling all the documents in the queue.

After filling in the form for "Get a Document signed", I forgot to check the box "Preview, position signatures and add form fields" before I clicked "Send". So, the document is now out for signature and I want to cancel it and start over.
