Make Your Kid a Millionaire Bookbaby

I wrote this book for those family members or close friends of an addict who are consumed with trying to keep their loved one alive. I will tell you exactly what to do and how to do it. My name is Scott Wisenbaker and I have been clean and sober since March 20, 1995. For years, I struggled with addictions that included alcohol, marijuana, cocaine, and methamphetamines. As a result, I was arrested many times from 1982 to 1995. In 1995, I sat in the Dallas County Court holding tank for

the very last time. After years of losing everything I held dear, I was finally brought to my knees inside the jail just a month earlier when I realized I would never be free if I continued in my addiction. So why would you listen to anything I have to say? I understand the mind of an addict and have successfully helped thousands take control of their addiction and return to being productive members of their families and society.

[Edupreneur: How To Monetise Your Expertise and Profitably Educate Your Market](#) Simon and Schuster

Winner of the Gold Medal for Best Christian Family and Parenting Book of 2020 by the Illumination Book Awards The creator of the viral parenting concept the “X-Plan” illuminates the importance of awakening your child’s unique strength—while also taking an introspective

look at your own life story to become a better parent. Last year, father and former teacher Bert Fulks’s simple parenting idea went viral: if your teenagers find themselves in a situation where they feel uncomfortable or trapped, they can text a family member an “X.” That family member will then call, giving the teen a way out, while still maintaining their freedom—and no questions will be asked. Now in X-Plan Parenting, Fulks expands on the how and the why behind his plan, emphasizing the importance of developing trusting relationships with our kids. Drawing on biblical principles, Fulks’s approach illuminates how even though we want the very best for our children, we sometimes parent from a place of brokenness and a desire for control rather

than support and encouragement. We focus on our mistakes and painful growing up moments and the things we wish we'd had when we were kids instead of what's best for our own children right now. This dynamic can pit kids against their parents and create rifts in the relationship. Fulks advocates for an alliance between children and parents instead of an "us vs. them" mentality. Rather than spending so much time coaxing or battling our kids, Fulks inspires us to work with our kids instead of against them. And rather than trying to right our own past wrongs vicariously through our children, he urges us to recognize where we need healing so we can provide authentic strength to support our kids' unique journeys. There is a tender art to disciplining our kids, and X-Plan Parenting serves up laughter and tears, hard questions, and plenty of grace to moms and dads who want their kids to love God and lead passionate, joyful lives in an unpredictable world.

Being a parent is the hardest job in the world - there's no denying that! Not only do you have to keep

a child healthy and happy, you are in charge of disciplining them, turning them into a good human being for the sake of society. And there's where everything starts to go downhill. No matter how fiercely you love your child and no matter how devoted they are to you, children doesn't want to listen! They don't want to listen to you when you want them to do something, and definitely not when you don't want them to do something. The result - utter chaos! I should know - I've been through that chaos. With a 6-year-old and a 2-year-old who didn't listen to anything I told them, I was drowning in desperation and frustration. There wasn't anything left for me to try to get my kids to listen to me - threatening them, punishing them, bribing them, cajoling them, trying to buy them with gifts, and what not. I was never a bad mother, but I was definitely a clueless one! Then, I thought of being an effective mother - the kind of parent who knows the right way of making her kids listen. Months of research and talking to other parents, I came up with a plan, and

everything I've learned is in this book. This book has everything every parent needs to know about making their children listen to them - not just hear the words, but listen and act on them. I've divided the book into chapters, each one dealing with specific phrases of their lives. There's also a chapter, at the beginning of the book, about why your children may not listen to you, which you can read to see where you're going wrong. If you also have problems with getting your kids to listen to you, I really hope this book can help!

Middle School Makeover is a guide for parents and educators to help the tweens in their lives navigate the socially fraught hallways, gyms, and cafeterias of middle school. The book helps parents, teachers, and other adults in middle school settings to understand the social dilemmas and other issues that kids today face.

Author Michelle Icard covers a large range of topics, beginning with helping

us understand what is happening in the brains of tweens and how these neurological development affects decision-making and questions around identity. She also addresses social media, dating, and peer exclusion. Using both recent research and her personal, extensive experience working with middle-school-aged kids and their parents, Icard offers readers concrete and practical advice for guiding children through this chaotic developmental stage while also building their confidence.

"My Kid Is Driving Me Crazy!" Harper

Collins

Children today live in an unpredictable, disruptive, and often violent world. Many of them live in two different homes with different sets of expectations. They face bullying at school and online. They hear news of school shootings, and racially or religiously motivated violence. They may have lost a friend or a loved one. As parents, the impulse to protect our children is strong, but that very protection can end up handicapping them for life. Rather than seek to save them from the hard things, parents must teach their kids how to cope with and rise above their problems. In one of his most important books to date, internationally known psychologist and bestselling author Dr. Kevin Leman shows parents how to - be good listeners - tell the truth, even when it's difficult - find balance between being protective and being overprotective - approach hurt and injustice as a learning experience rather than fostering a victim mentality - and much more Whether your child is dealing with a difficult

family situation, bullies, the loss of friends, the death of a loved one, discrimination, abuse, a teen pregnancy, or even just trying to make sense of what they see in the news, this compassionate and practical book will help parents equip them to process, learn from, and rise above their situation.

How to Raise Kids Who Aren't Assholes
Penguin

Thousands of books have examined the effects of parents on their children. In *All Joy and No Fun*, award-winning journalist Jennifer Senior now asks: what are the effects of children on their parents? In *All Joy and No Fun*, award-winning journalist Jennifer Senior tries to tackle this question, isolating and analyzing the many ways in which children reshape their parents' lives, whether it's their marriages, their jobs, their habits, their hobbies, their friendships, or their

internal senses of self. She argues that changes in the last half century have radically altered the roles of today's mothers and fathers, making their mandates at once more complex and far less clear. Recruiting from a wide variety of sources—in history, sociology, economics, psychology, philosophy, and anthropology—she dissects both the timeless strains of parenting and the ones that are brand new, and then brings her research to life in the homes of ordinary parents around the country. The result is an unforgettable series of family portraits, starting with parents of young children and progressing to parents of teens. Through lively and accessible storytelling, Senior follows these mothers and fathers as they wrestle with some of parenthood's deepest vexations—and luxuriate in some of its finest rewards. Meticulously researched yet imbued with emotional intelligence, *All Joy and No Fun* makes us reconsider some of our culture's most basic beliefs about parenthood, all while illuminating the profound ways children deepen and add purpose to our lives. By focusing on parenthood, rather than parenting, the book is original and essential reading for mothers and fathers of today—and tomorrow.

How to Con Your Kid Simon and Schuster

A psychologist with a reputation for penetrating to the heart of complex parenting issues joins forces with a physician and bestselling author to tackle one of the most disturbing and misunderstood trends of our time -- peers replacing parents in the lives of our children. Dr. Neufeld has dubbed this phenomenon peer orientation, which refers to the tendency of children and youth to look to their peers for direction: for a sense of right and wrong, for values, identity and codes of behaviour. But peer orientation undermines family cohesion, poisons the school atmosphere, and fosters an aggressively hostile and sexualized youth culture. It provides a powerful explanation for schoolyard bullying

and youth violence; its effects are painfully evident in the context of teenage gangs and criminal activity, in tragedies such as in Littleton, Colorado; Tabor, Alberta and Victoria, B.C. It is an escalating trend that has never been adequately described or contested until *Hold On to Your Kids*. Once understood, it becomes self-evident -- as do the solutions. *Hold On to Your Kids* will restore parenting to its natural intuitive basis and the parent-child relationship to its rightful preeminence. The concepts, principles and practical advice contained in *Hold On to Your Kids* will empower parents to satisfy their children's inborn need to find direction by turning towards a source of authority, contact and warmth. Something has changed. One can sense it, one can feel it, just not find the words for it. Children are not quite the same as we remember being. They seem less likely to take their cues from adults, less inclined to please those in charge, less afraid of getting into trouble. Parenting, too, seems to have changed. Our parents seemed more confident, more certain of themselves and had more impact on

us, for better or for worse. For many, parenting does not feel natural. Adults through the ages have complained about children being less respectful of their elders and more difficult to manage than preceding generations, but could it be that this time it is for real? -- from *Hold On to Your Kids*
The Ten Basic Principles of Good Parenting LifeTree Media
How to Raise Kids Who Aren't Assholes is a clear, actionable, sometimes humorous (but always science-based) guide for parents on how to shape their kids into honest, kind, generous, confident, independent, and resilient people...who just might save the world one day. As an award-winning science journalist, Melinda Wenner Moyer was regularly asked to investigate and address all kinds of parenting questions: how to potty train, when and whether to get vaccines, and how to help kids sleep through the night. But as Melinda's children grew, she found that one huge area was ignored in the realm of parenting advice: how do we make sure our kids don't grow up to be assholes? On social media, in

the news, and from the highest levels of government, kids are increasingly getting the message that being selfish, obnoxious and cruel is okay. Hate crimes among children and teens are rising, while compassion among teens has been dropping. We know, of course, that young people have the capacity for great empathy, resilience, and action, and we all want to bring up kids who will help build a better tomorrow. But how do we actually do this? How do we raise children who are kind, considerate, and ethical inside and outside the home, who will grow into adults committed to making the world a better place? *How to Raise Kids Who Aren't Assholes* is a deeply researched, evidence-based primer that provides a fresh, often surprising perspective on parenting issues, from toddlerhood through the teenage years. First, Melinda outlines the traits we want our children to possess—including honesty, generosity, and antiracism—and then she provides scientifically-based strategies that will help parents instill those characteristics in their kids. Learn how to raise the kind of kids you actually want to hang out with—and who just might save the world.
