lost prince. With the face of a god and the arrogance to match, the pest won't leave. Sexy, charming, and just a little bit dirty, he's slowly wearing me down, making me crave more. He could be mine if I dare to claim him. Problem is, the world thinks he's theirs. How do you keep an idol when everyone is intent on taking him away? Killian As lead singer for the biggest rock band in the world, I

lived a life of dreams. It all fell apart with one fateful decision. Now everything is in shambles. Until Liberty. She's grouchy, a recluse—and kind of cute. Scratch that. When I get my hands on her, she is scorching hot and more addictive than all the fans who've screamed my name. The world is clamoring for me to get back on stage, but I'm not willing to leave her. A lively, entertaining, wide-ranging oral history of the golden age of the rock concert based on over ninety interviews with musicians, promoters, stagehands, and others who contributed to the huge cultural phenomenon that is live rock. Decades after the rise of rock music in the 1950s, the rock concert retains its allure and its power as a unifying experience—and as an influential multi-billion-dollar industry. In *Rock Concert*, acclaimed interviewer Marc Myers sets out to uncover the history of this compelling phenomenon, weaving

---

together ground-breaking accounts from the people who were there. Myers combines the tales of icons like Joan Baez, Ian Anderson, Alice Cooper, Steve Miller, Roger Waters, and Angus Young with figures such as the disc jockeys who first began playing rock on the radio, like Alan Freed in Cleveland and New York; the audio engineers that developed new technologies to accommodate ever-growing rock audiences; music journalists, like Rolling Stone's Cameron Crowe; and the promoters who organized it all, like Michael Lang, co-founder of Woodstock, to create a rounded and vivid account of

live rock's stratospheric rise. Rock Concert provides a fascinating, immediate look at the evolution of rock 'n' roll through the lens of live performances —spanning from the rise of R&B in the 1950s, through the hippie gatherings of the '60s, to the growing arena tours of the '70s and '80s. Elvis Presley's gyrating hips, the British Invasion that brought the Beatles in the '60s, the Grateful Dead's free flowing jams, and Pink Floyd's The Wall are just a few of the defining musical acts that drive this rich narrative. Featuring dozens of key players in the history of rock and filled with colorful anecdotes, Rock

Concert will speak to anyone who has experienced the transcendence of live rock. **How to Kill a Rock Star** Rowman & Littlefield The fascinating story of the most powerful source of energy the earth can yield Uranium is a common element in the earth's crust and the only naturally occurring mineral with the power to end all life on the planet. After World War II, it reshaped the global order-whoever could master uranium could master the world. Marie Curie gave us hope that uranium would be a miracle panacea, but the Manhattan Project gave us reason to believe that

---

civilization would end with apocalypse. Slave labor camps in Africa and Eastern Europe were built around mine shafts and America would knowingly send more than six hundred uranium miners to their graves in the name of national security. Fortunes have been made from this yellow dirt; massive energy grids have been run from it. Fear of it panicked the American people into supporting a questionable war with Iraq and its specter threatens to create another conflict in Iran. Now, some are hoping it can help avoid a global warming catastrophe. In Uranium, Tom Zoellner takes readers around the globe in

this intriguing look at the mineral that can sustain life or destroy it.

lead him to several shadowy insurance companies owned by a Russian oligarch with a Cypriot passport. The arrival of the oligarch's daughter in the Périgord only further complicates one of Bruno's toughest cases yet.

*Idol* Grove/Atlantic, Inc. Longtime friend and reporter, Neil McCormick, reveals childhood and present day stories about Bono and his band, U2. Some are born great. Some achieve greatness.

Some have greatness thrust upon them. And some have the misfortune to go to school with Bono. Everyone wants to be famous. But as a young punk in Dublin in the 1970s, Neil McCormick's ambitions went way beyond mere pop stardom. It was his destiny to be a veritable Rock God. He had it all worked out: the albums, the concerts, the quest for world peace. There was only one thing he hadn't counted on. The boy

sitting on the other side of the classroom had plans of his own. Killing Bono is a story of divergent lives. As Bono and his band U2 ascended to global superstardom, his school friend Neil scorched a burning path in quite the opposite direction. Bad drugs, weird sex, bizarre haircuts: Neil experienced it all in his elusive quest for fame. But sometimes it is life's losers who have the most interesting tales to tell. Featuring guest appearances by the Pope,

Bob Dylan, and a galaxy of stars, Killing Bono offers an extremely funny, startlingly candid, and strangely moving account of a life lived in the shadows of superstardom. “The problem with knowing you is that you've done everything I ever wanted to,” Neil once complained to his famous friend. “I'm your doppelganger,” Bono replied. “If you want your life back, you'll have to kill me.” Now there was a thought...

Punk isn't a sound--it's an idea! In its history, K Records has fostered some of independent music's greatest artists, including Bikini Kill, Beat Happening, Built to Spill, Beck, Modest Mouse, and the Gossip. In 1982, K Records released its first

cassette and put its own spin on punk's defiant manifesto: You don't need anyone's permission to make music. Thirty years later, the label continues to operate in the underground while rightfully claiming a role as one of the most transformative engines of modern independent music. It has also galvanized the international pop underground, helped create the grunge scene that took over pop culture,

---

and provided a launching pad for the riot grrrl movement that changed the role of women in music forever. Love Rock Revolution tells the story of how it all happened, recounting the early journeys of K Records founder Calvin Johnson from the punk mecca of London to the hardcore clubs of Washington, D.C., in the late-'70s, the creation of K Records in the '80s, the label's role in revolutionizing independent music in the

'90s, and its struggle to survive that revolution with its integrity intact. From the Trade Paperback edition.

The year is 1983, and Chuck Klosterman just wants to rock. But he's got problems. For one, he's in the fifth grade. For another, he lives in rural North Dakota. Worst of all, his parents aren't exactly down with the long hairstyle which rocking requires. Luckily, his brother saves the day when he brings home a bit of manna from metal heaven, SHOUT

AT THE DEVIL, Motley Crue's seminal paean to hair-band excess. And so Klosterman's twisted odyssey begins, a journey spent worshipping at the heavy metal altar of Poison, Lita Ford and Guns N' Roses. In the hilarious, young-man-growing-up-with-a-soundtrack-tradition, FARGO ROCK CITY chronicles Klosterman's formative years through the lens of heavy metal, the irony-deficient genre that, for better or worse, dominated the pop charts throughout the 1980s. For readers of Dave Eggers, Lester Bangs, and Nick Hornby, Klosterman delivers all the goods: from his first dance

(with a girl) and his eye-opening trip to Mandan with the debate team; to his list of 'essential' albums; and his thoughtful analysis of the similarities between Guns 'n' Roses' 'Lies' and the gospels of the New Testament.

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned

up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions

from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award–winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of The Daily Show; on-air

---

interviewees ranged from John and Yoko to Noam Chomsky; a telephone “Listener Line” fielded questions on any subject, day and night. From 1968 to Watergate, Boston’s WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven

through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the “news dissector” Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein’s documentary WBCN and the American Revolution is available as a DVD sold separately.

**Folklore** Flatiron Books  
The wildly entertaining story of progressive rock, the music that ruled the

1970s charts—and has divided listeners ever since. The Show That Never Ends is the definitive story of the extraordinary rise and fall of progressive (“prog”) rock. Epitomized by such classic, chart-topping bands as Yes, Genesis, Pink Floyd, Jethro Tull, and Emerson Lake & Palmer, along with such successors as Rush, Marillion, Asia, Styx, and Porcupine Tree, prog sold hundreds of millions of records. It brought into the

---

mainstream concept albums, spaced-out cover art, crazy time signatures, multitrack recording, and stagecraft so bombastic it was spoofed in the classic movie *This Is Spinal Tap*. With a vast knowledge of what Rolling Stone has called “the deliciously decadent genre that the punks failed to kill,” access to key people who made the music, and the passion of a true enthusiast, Washington Post national reporter David Weigel tells the

story of prog in all its pomp, creativity, and excess. Weigel explains exactly what was “progressive” about prog rock and how its complexity and experimentalism arose from such precursors as the Beach Boys’ *Pet Sounds* and the Beatles’ *Sgt. Pepper*. He traces prog’s popularity from the massive success of Procol Harum’s “Whiter Shade of Pale” and the Moody Blues’ “Nights in White Satin” in 1967. He reveals

how prog’s best-selling, epochal albums were made, including *The Dark Side of the Moon*, *Thick as a Brick*, and *Tubular Bells*. And he explores the rise of new instruments into the prog mix, such as the synthesizer, flute, mellotron, and—famously—the double-neck guitar. *The Show That Never Ends* is filled with the candid reminiscences of prog’s celebrated musicians. It also features memorable portraits of the vital

---

contributions of producers, empresarios, and technicians such as Richard Branson, Brian Eno, Ahmet Ertegun, and Bob Moog. Ultimately, Weigel defends prog from the enormous derision it has received for a generation, and he reveals the new critical respect and popularity it has achieved in its contemporary resurgence. but on our culture at large."  
—Annie Clark, *St. Vincent* An acclaimed, career-spanning collection from a fiercely feminist and revered contemporary rock critic, reissued with new material Throughout her career, spanning more than two decades, Jessica Hopper, a revered and pioneering music critic, has examined women recording and producing music, in all genres, through an intersectional feminist lens. *The First Collection of Criticism by a Living Female Rock Critic* features oral histories of bands like Hole and Sleater Kinney, interviews with the women editors of 1970s-era Rolling

Stone, and intimate conversations with iconic musicians such as Björk, Robyn, and Lido Pimienta. Hopper journeys through the truths of Riot Grrrl's empowering insurgence; decamps to Gary, Indiana, on the eve of Michael Jackson's death; explodes the grunge-era mythologies of Nirvana and Courtney Love; and examines the rise of emo. The collection also includes profiles and reviews of some of the most-loved, and most-loathed, women artists making music today: Fiona Apple, Kacey Musgraves, M.I.A., Miley Cyrus, Lana Del Rey. In order for the music industry to

change, Hopper writes, we need “the continual presence of radicalized women . . . being encouraged and given reasons to stay, rather than diminished by the music which glues our communities together.” *The First Collection of Criticism by a Living Female Rock Critic*—published to acclaim in 2015, and reissued now with new material and an introduction by Samantha Irby—is a rallying cry for women-centered history and storytelling, and a groundbreaking, obsessive, razor-sharp panorama of music writing crafted by one of the most influential critics of her generation.

Seventeen-year-old Pinkie Brown, raised amid the casual violence and corruption in the dire prewar Brighton slums, has left his final judgment in the hands of God. On the streets, impelled by his own twisted moral doctrine, he leads a motley pack of gangsters whose sleazy little rackets have most recently erupted in the murder of an informant. Pinkie's attempts to cover their tracks have led him into the bed of a timid and lovestruck young waitress named Rose—his new wife—the key witness to his crimes, and, should she live long enough, his alibi. But loitering in the shadows is another woman, Ida Arnold—an avenging angel determined to do right by Pinkie's latest victim. Adapted for film in both 1948 and 2010 and for the stage as both a drama and musical, and serving as an inspiration to such disparate artists as Morrissey, John Barry, and Queen, “this bleak, seething and anarchic novel still resonate[s]” (The Guardian).
