In Bret Malley's world, a father is suspended in the air among his baby's collection of toys . . . a big-box store and parking lot can be transformed into a scene of reclaimed nature . . . and an ordinary person can sculpt fire with his bare hands. And in Adobe Master Class: Advanced Compositing in Adobe Photoshop CC, Second Edition, Bret shares the techniques he uses to elevate an image from the everyday to the extraordinary, showing you how to make seemingly impossible scenarios come to life. Designed as a comprehensive guide to compositing from start to finish, this book is divided into three sections. Section I provides an overview of Adobe Photoshop CC focusing on both basic and hidden tools and other features you need to master in order to create stunning composite imagery. Bret also shows you how to shoot high-quality photos for compositing, including tips for equipment and technique. Going beyond the mechanics of Photoshop, Section II leaps into hands-on action by guiding readers through the creation of four unique composites. These fun and informative step-by-step projects cover everything from the first planning sketches to the final finishing touches (using resources provided for download). In Section III, additional detailed project

walkthroughs offer tips on everything from creating a superhuman to compositing an epic fantasy landscape. Interviews and spreads featuring established and emerging artists provide a range of inspirational imagery, creative insight, and professional know-how.

The use of images, particularly photography, has been steadily gaining popularity in academia, but there has not yet been a book that deals with the act and process of photo-taking in the field. Drawing upon 21 years of photographic experience and sociological research, Terence Heng's immersive and narrative style will: introduce photography as a qualitative method; discuss the intricacies of, challenges in and opportunities for using a camera in the field; explore common themes and topics in social science research, including photographing rituals, space, people and objects; advise on navigating the always evolving technological landscapes of traditional, digital and mobile photography. *Visual Methods in the Field: Photography for the Social Sciences* is a photography guide written for researchers by a researcher. Using in-depth ethnographic case studies from research done in various urban environments, this book will act as a crucial bridge for students in geography, sociology, education, media studies and other social sciences to incorporate photography into their research repertoire.
