NATIONAL BESTSELLER A top journalist crosses the yellow tape to investigate a shocking high-society crime. Billionaires, philanthropists, socialites . . . victims. Barry and Honey Sherman appeared to lead charmed lives. But the world was shocked in late 2017 when their bodies were found in a bizarre tableau in their elegant Toronto home. First described as murder-suicide — belts looped around their necks, they were found seated beside their basement swimming pool — police later ruled it a staged, targeted double murder. Nothing about the case made sense to friends of the founder of one of the world's largest generic pharmaceutical firms and his wife, a powerhouse in Canada's charity world. Together, their wealth has been estimated at well over \$4.7 billion. There was another side to the story. A strategic genius who built a large generic drug company — Apotex Inc. — Barry Sherman was a self-described workaholic, renowned risk-taker, and disruptor during his fifty-year career.

Regarded as a generous friend by many, Sherman was also feared by others. He was criticized for stifling academic freedom and using the courts to win at all costs. Upset with building issues at his mansion, he sued and recouped millions from tradespeople. At the time of his death, Sherman had just won a decades-old legal case involving four cousins who wanted 20 percent of his fortune. Toronto Star investigative journalist Kevin Donovan chronicles the unsettling story from the beginning, interviewing family members, friends, and colleagues, and sheds new light on the Shermans' lives and the disturbing double murder. Deeply researched and authoritative, *The Billionaire Murders* is a compulsively readable tale of a strange and perplexing crime.

A Globe and Mail Top 100 Book of the Year In this "engrossing must-read" by "Canada's most accomplished popular historian" (Ellery Queen Mystery Magazine), the glittering life and brutal murder of Sir Harry Oakes is newly investigated. *Murdered Midas* is "superior true-crime writing" (The Globe and Mail). On an island paradise in 1943, Sir Harry Oakes, gold-mining tycoon, philanthropist and one of the richest men in the British Empire, is murdered. The news of his death surges across the English-speaking world, from London, the Imperial centre, to the remote Canadian mining town of Kirkland Lake in the Northern Ontario bush. The murder becomes celebrated as the crime of the century. The layers of mystery deepen as the involvement of Count Alfred de Marigny, Oakes's son-in-law, comes into question. Also suspicious are the odd machinations of the governor of the Bahamas, the former King Edward VIII. But despite a sensational trial, no murderer is convicted. Rumours about Oakes's missing fortune are unrelenting, and fascination with the story has persisted for decades. Award-winning biographer and popular historian Charlotte Gray explores the life of the man behind the scandal—from his early, hardscrabble days during the massive mineral rush in Northern Ontario, to the fabulous fortune he reaped from his own gold mine, to his grandiose gestures of philanthropy. And Gray brings fresh eyes to the bungled investigation and shocking trial on the remote colonial island, proposing an overlooked suspect in this long cold case. *Murdered Midas* is the story of the man behind the newspaper headlines, a man both admired and reviled who, despite great wealth and public standing, never experienced justice.

Three victims testify, and a serial rapist learns: 'Leave no witnesses!'. Serial rapist/murderer Robert Reldan, a Ted Bundy-like charmer, had an engaging smile. A smile that inspired trust. A smile that would, over the next 20 years, cause a dozen unsuspecting women to drop their guard and place themselves under the power of one of New Jersey's most ruthless criminals. Two of those women (Susan Heynes, a nurse, and Susan Reeve, a recent college graduate) achieved unwanted fame as victims in what a prominent newspaper would call "the Susan strangulations". When their nude and battered bodies were discovered, each had been strangled with her own pantyhose. While in prison awaiting trial for the 'Susan' murders, Reldan tried to hire a hit man to kill his wealthy aunt. In an ironic twist of fate, Reldan would become, briefly, the wealthiest 'lifer' in the prison system. The aunt he had tried to have killed, still charmed by her beloved nephew, left him an \$8.9 million trust fund when she died.

In December 1919, Ambrose Small, the mercurial owner of the Grand Opera House in Toronto, closed a deal to sell his network of Ontario theatres, deposited a million-dollar cheque in his bank account, and was never seen again. As weeks turned to years, the disappearance became the most "extraordinary unsolved mystery" of its time. Everything about the sensational case would be called into question in the decades to come, including the motivations of his inner circle, his enemies, and the police who followed the trail across the continent, looking for answers in asylums, theatres, and the Pacific Northwest. In *The Missing Millionaire*, Katie Daubs tells the story of the Small mystery, weaving together a gripping narrative with the social and cultural history of a city undergoing immense change. Daubs examines the characters who were connected to the case as the century carried on: Ambrose's religious wife, Theresa; his long-time secretary, Jack Doughty; his two unmarried sisters, Florence and Gertrude; Patrick Sullivan, a lawless ex-policeman; and Austin Mitchell, an overwhelmed detective. A series of trials exposed Small's tumultuous business and personal relationships, while allegations and confessions swirled. But as the main players in the Small mystery died, they took their secrets to the grave, and Ambrose Small would be forever missing. Drawing on extensive research, newly discovered archival material, and her own interviews with the descendants of key figures, Katie Daubs offers a rich portrait of life in an evolving city in the early twentieth century. Delving into a crime story about the power of the elite, she vividly recounts the page-turning tale of a cold case that is truly stranger than fiction.
