How To Shift A Manual
Manual Shifting
Automatic Transmission
Info - YouFixCars.com
Driving a car with a manual transmission—also called a stick shift—requires more skill and understanding than operating a vehicle with an automatic transmission. In a stick shift vehicle, you will be manually shifting gears to adjust your speed, rather than letting the car do it for you .
[How to Downshift: 5 Steps](#)

Recognize when it's time to shift up to a higher gear. When your RPM reaches about 2500 to 3000 while the car is in motion, it is time to shift to the next gear — for example, second gear if you are currently in first. The actual RPMs at which shifting is required will vary by the car you are driving, however.

Once you reach a high enough speed to switch gears, roll the throttle back and squeeze the clutch. To shift up, use your foot to pull the shift peg up as high as it will go, and to shift down, press down on the shift peg. For tips on shifting gears on a semi-automatic transmission, read on!
How to Use the Manual

Shift Mode on an Automatic
...

A manual transmission requires the driver to shift the gears themselves. Most cars have four or five forward speeds, as well as reverse. In order to master the process, you need to know the following:

[How to Speed-Shift a Manual Transmission for a Drag Race ...](#)

Shift to the gear before the one you are on. For our example we are shifting from 3rd gear to 2nd. You have to let go of the gas and press down in the clutch the

whole time you are shifting.

Once you have the gear you want give it gas and let go of the clutch simultaneously.

Try to even it out to where you don't jerk a lot and have a smooth shift.
