The nature of reality is in flux as a man tries to convince himself what he's experiencing is merely an illusion, and something is rotten in Victorian London. One man's automobile is another's bloody end, and a dear, departed

father passes down the most detestable of gifts to his son. One man saves a world at the cost of another's heart, and the English find the most reasonable way to meet their needs in the worldwide food shortage. Science fiction. Thriller. Fantasy. Americana and Japanese folklore; all these genres and more make their appearance in the premier short story collection.

WHAT IS THE STORY GRID? The Story Grid is a tool developed by editor Shawn Coyne to analyze stories and provide helpful editorial comments. It's like a CT Scan that takes a photo of the global story and tells the editor or writer what is working, what is not, and what must be done to make what works

better and fix what's not. The Story Grid breaks down the component parts of stories to identify the problems. And finding the problems in a story is almost as difficult as the writing of the story itself (maybe even more difficult). The Story Grid is a tool with many applications: 1. It will tell a writer if a Story ?works? or ?doesn't work. 2. It pinpoints story problems but does not emotionally abuse the writer, revealing exactly where a Story (not the

person creating the Story'the Story) has failed. 3. It will tell the writer the specific work necessary to fix that Story's problems. 4. It is a tool to re-envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer. 5. It is a tool that can inspire an original creation.
