After you empty the coffee grounds I always like to wipe the reusable coffee filter clean. You can use a paper towel, sponge, or reusable towel for this part. I do this because there always seems to be excess coffee beans in the basket. If the filter has been sitting a while with coffee grounds in it the grounds tend to harden.

[How To Use Coffee Filter](#)

To prepare filter coffee in a standard coffee maker, start by filling the machine with filtered water. Next, insert the coffee filter and measure out the ground coffee beans using 1 heaping tablespoon of grounds for every 5 ounces of water you poured into the machine.

Use a coffee filter to coat a cake pan with shortening instead of a paper towel, which could leave lint behind. 10.
