Fundamentals of Writing is a book written specifically for those who want to improve their writing skills and apply them to writing articles (for newspapers, magazines, and corporate publications), media releases, case studies, blog posts and social media content. The book is based on several writing courses that I teach online for University of Toronto continuing education students and for private students and corporate clients. And it is filled with samples, examples and exercises to get you writing. Fundamentals of Writing is for you if you are looking to do any of the following: become a more effective writer; organize your thoughts before you write; write for a defined audience; make your points in a clear, concise, focused manner. My hope is that this book will help you effectively structure your written communication when writing articles, media releases, case studies, blog posts and social media content.

[The Science and Sense of Giving Your Kids More Control Over Their Lives](#) John Wiley & Sons

Ran for seven years and 46 thrilling issues, showing the hard-fisted underworld and the brave lawmen who worked tirelessly and bravely to stop them. This comic was not afraid to scare the reader a little, to make him wince, to make him wonder if maybe this was the time the bad guy would win. The comic reprints from are reproduced from actual classic comics, and sometimes reflect the imperfection of books that are decades old. Many people enjoy these authentic characteristics

A concise and accessible primer on the scientific writer's craft The ability to write clearly is critical to any scientific career. *The Scientist's Guide to Writing* provides practical advice to help scientists become more effective writers so that their ideas have the greatest possible impact. Drawing on his own experience as a scientist, graduate adviser, and editor, Stephen Heard emphasizes that the goal of all scientific writing should be absolute clarity; that good writing takes deliberate practice; and that what many scientists need are not long lists of prescriptive rules but rather direct engagement with their behaviors and attitudes when they write. He combines advice on such topics as how to generate and maintain writing momentum with practical tips on structuring a scientific paper, revising a first draft, handling citations, responding to peer reviews, managing coauthorships, and more. In an accessible, informal tone, *The Scientist's Guide to Writing* explains essential techniques that students, postdoctoral researchers, and early-career scientists need to write more clearly, efficiently, and easily. Emphasizes writing as a process, not just a product Encourages habits that improve motivation and productivity Explains the structure of the scientific paper and the function of each part Provides detailed guidance on submission, review, revision, and publication Addresses issues related to coauthorship, English as a second language, and more

[The Case Study Handbook, Revised Edition](#) Elsevier Health Sciences

A moving exploration of how gay men construct their identities, fight to be themselves, and live authentically It goes without saying that even today, it's not easy to be gay in America. While young gay men often come out more readily, even those from the most progressive of backgrounds still struggle with the legacy of early-life stigma and a deficit of self-acceptance, which can fuel doubt, regret, and, at worst, self-loathing. And this is to say nothing of the ongoing trauma wrought by AIDS, which is all too often relegated to history. Drawing on his work as a clinical psychologist during and in the aftermath of the epidemic, Walt Odets reflects on what it means to survive and figure out a way to live in a new, uncompromising future, both for the men who endured the upheaval of those years and for the younger men who have come of age since then, at a time when an HIV epidemic is still ravaging the gay community, especially among the most marginalized. Through moving stories—of friends and patients, and his own—Odets considers how experiences early in life launch men on trajectories aimed at futures that are not authentically theirs. He writes to help reconstruct how we think about gay life by considering everything from the misleading idea of "the homosexual," to the diversity and richness of gay relationships, to the historical role of stigma and shame and the significance of youth and of aging. Crawling out from under the trauma of destructive early-life experience and the two epidemics, and into a century of shifting social values, provides an opportunity to explore possibilities rather than live with limitations imposed by others. Though it is drawn from decades of private practice, activism, and life in the gay community, Odets's work achieves remarkable universality. At its core, *Out of the Shadows* is driven by his belief that it is time that we act based on who we are and not who others are or who they would want us to be. We—particularly the young—must construct our own paths through life. *Out of the Shadows* is a necessary, impassioned argument for how and why we must all take hold of our futures.

The Case for Capitalism London : Research and Publications Division, School of Business Administration, University of Western Ontario

"This book is written to show that the greater output of goods and services on which material progress depends cannot be expected with certainty under any form of socialism that has yet been proposed."--Preface.

A Step by Step Guide for Beginners. Simon and Schuster

Almost one hundred forty years after the vicious and unsolved murder of the beautiful 17-year-old daughter of a well-to-do local family, a seasoned prosecutor and detective of the Monroe County Pennsylvania District Attorney's Office team up to solve this coldest of cases. By using the techniques, methods, and insights acquired over the course of their careers they pursue the crime in all its details, recognizing the limitations and failings of the original investigators, uncovering leads long ago forgotten, and using the passage of the years to connect suspects to the crime. Their mission is to fulfill a centuries old mandate issued by a long forgotten grand jury directing their predecessors to 'use all resources to ferret out the murder of Etna Bittenbender'. Their journey through the darkest inner recesses of the human soul gives form and shape to an innocent life brutally snuffed out and of a depraved crime both of which had been reduced to nothing more than a dim memory.

Online Marketing for Professional Services Princeton University Press

Integrating recent research and developments in the field, this revised second edition introduces an easy-to-master strategy for developing and writing culturally sensitive case conceptualizations and treatment plans. Concrete guidelines and updated case material are provided for developing conceptualizations for the five most common therapy models: Cognitive-Behavioral Therapy (CBT), Psychodynamic, Biopsychosocial, Adlerian, and Acceptance and Commitment Therapy. The chapters also include specific exercises and activities for mastering case conceptualization and related competencies and skills. Also new to this edition is a chapter on couple and family case conceptualizations, and an emphasis throughout on trauma. Practitioners, as well as graduate students in counseling and in clinical psychology, will gain the essential skills and knowledge they need to master case conceptualizations.

The Case Writing Process Pearson Education

This book titled *How to Write Effective Teaching Notes & Teach Case Studies Effectively?* can well be considered to complete my authored trilogy on management case studies. My previous two books being *How to Write and Teach Case Studies Effectively?* and *How to Enhance Shelf Life of Case Studies?* This book not just goes a step further or rather couple of steps further into the exact and effective approach to teaching cases but it also details about writing effective teaching notes. Teaching notes go a long way in making teachers understand the efficacy of a case study and its suitability of usage in the context of a particular curriculum. It also offers teachers guidance/suggestion as how to conduct a class on case based teaching.

Writing Case Reports John Wiley & Sons

Had the antique scalpels really been used by a woman doctor, Isabella Stenhouse, to tend soldiers in WW1? Was it true that the strange string of beads tangled round her stethoscope was a gift from a grateful German prisoner of war? It was time to find out. As featured on the BBC Antiques Roadshow and in national media.

Professional services marketing is undergoing a revolution. More and more, firms are being found and vetted online, and traditional techniques for generating leads and nurturing prospects are growing less effective. In this groundbreaking new book readers will understand the changing landscape and how to lay the foundation for a powerful online marketing program. Based on primary research of over 500 professional services firm executives, this book offers easy-to-understand, practical advice, as well as real-world examples of firms that are using online marketing today to build their businesses.

HBR Guide to Building Your Business Case Penguin

This New Adult book is intended for audiences over the age of 18 due to adult language, sexual content and adult situations Kit Logan wants to know my name, but I can't tell him. I can't tell him anything. There are too many people looking for me. He's pretty persuasive, though, and he convinces me to go home with him so he can keep me safe from this harsh city where I find myself. It's not my home. It's his. He belongs. I don't. Logan lives with four brothers in the inner city. Yet I've never felt more safe than I do when I'm with him. I want him. But he won't let me have a darn thing, aside from his friendship, unless I'm willing to tell him my secrets. But they're mine, and I can't share them. Not unless I want them to come and get me. Logan She catches my eye because she's so beautiful she takes my breath. But that's not all that I love about her. I love the way she smells. The way she smiles. The way she plays the guitar is unlike anything I have ever seen. She sleeps in my bed every night, and drives me crazy with her touch. But I can't take what she offers because I need all of her. I need for her to tell me her secrets. I need for her to trust me. From the back of the book: She 's locked up tight. But he might be the key. Logan Reed is tall, tatted and tempting. Kit 's a woman with a mean right hook and a secret. Kit wants a tattoo, but Logan sees more than she intends to share in the drawing of the tat she wants. He sees her in ways no one ever has. Logan 's not disabled; but he hasn 't spoken in eight years. He hasn 't needed to. Until he meets Kit. Logan doesn 't know everything about Kit. Kit doesn 't know anything about herself, until she has to sacrifice all she ever wanted to save what 's most important to him.

I suspect that if you are reading this book, then you either just finished your book or you are contemplating self-publishing books as a full-time or part-time income or just to publish your book and brag to your friends about it later. In any case, this book is written for you and it comes from my heart, and from my many trial and errors over the last two years and still am doing today. I hope I will not let you down with the content of this book and that you will find it useful.

Clinical Case Studies in Physiotherapy E-Book London, Eveleigh

DON'T LET YOUR WRITING HOLD YOU BACK. When you 're fumbling for words and pressed for time, you might be tempted to dismiss good business writing as a luxury. But it 's a skill you must cultivate to succeed: You 'll lose time, money, and influence if your e-mails, proposals, and other important documents fail to win people over. The HBR Guide to Better Business Writing, by writing expert Bryan A. Garner, gives you the tools you need to express your ideas clearly and persuasively so clients, colleagues, stakeholders, and partners will get behind them. This book will help you:

- Push past writer 's block
- Grab—and keep—readers ' attention
- Earn credibility with tough audiences
- Trim the fat from your writing
- Strike the right tone
- Brush up on grammar, punctuation, and usage
