The secret of writing a successful screenplay is sought after by ever-growing numbers of scribes and enthusiasts. Screenwriters' Masterclass offers state-of-the-art advice in that line, through interviews with nineteen of the leading scriptwriters of our day whose insights are invaluable to any aspirant. Each interview guides the reader entertainingly through the creation process of the film; how the writer handled the painstaking process of creating a three-dimensional world out of their imagination; what worked - and what didn't - in the finished film; and, most importantly, why that was so. In the process, each interview is a valuable case history, offering film buffs an uncommon glimpse behind the scenes of cinema: from Oscar-winner Ted Tally, recounting life on-set with Jodie Foster and Hannibal the Cannibal on The Silence of the

Lambs, to Robert Wade and Neil Purvis coming up with new ways for James Bond to Die Another Day. Represented alongside the Hollywood pros are the leading screenwriters from the US independent and European scenes, including some of the most inspiring new talents in film: from Carlos Cuarn (Y Tu Mam Tambin) and Chris Weitz (About a Boy) to Wes Anderson (Rushmore) and Alex Garland (28 Days Later).

Screenwriting Down to the Atoms Allen & Unwin
There are many books on screenwriting that claim to have all the answers. Unfortunately, quite often the more aspiring writers read, the more confused they become as they encounter contradictory statements, incomplete perspectives, and methods that fail to do more than scratch the surface. "*Screenwriting Down to the Atoms*" was written to end all the confusion. It picks up where the best leave off and makes up for where the rest fall short by looking closer and digging deeper to reveal the "true" principles beneath great cinematic stories. No confusion. No contradictions. "Atoms" provides a light in the dark to give a full, simple, and truly effective understanding of the craft. "*Screenwriting Down to the Atoms*" takes the basics "far beyond" the basics. It begins by putting the entire field under the microscope to challenge, and often refute, ideas writers have been taught to assume for decades. It then builds a simple, systematic approach clear enough for any writer to understand and put directly into use. Readers will discover storytelling's "golden key" - an elegantly-simple structure that forms the basis of all other structures. They will learn how to satisfy viewers by meeting the responsibilities of the "storyteller-audience relationship." They will understand how to creatively control story information to give a narrative the greatest dramatic impact. Most writers toil for years to learn these principles. With "Atoms," you can have this knowledge from the very start. Whether you are working on your fifteenth screenplay or your first,

"Screenwriting Down to the Atoms" gives indispensable knowledge found in no other source. "Atoms" is screencraft for the 21st century. The next generation of guides for the next generation of writers.

We're living in a time of unprecedented diversity in produced media content, with more LGBT characters, more characters of color, more disabled characters, and more characters from various religions or classes. These characters also appear in genre pieces, accessible to the mainstream, instead of being hidden away in so-called "worthier" pieces, as in the past. This book discusses issues of race, disability, sexuality and transgender people with specific reference to characterization in movies, TV, and novel writing. Using such examples as the film *Mad Max: Fury Road* and the novel *Gone Girl*, the book explores how character role function really works. It discusses such questions as the difference between stereotype and archetype, why "trope" does not mean what Twitter and Tumblr think it means, how the burden of casting affects both box office and audience perception, and why diversity is not about agendas, buzzwords or being "politically correct." It also goes into what authenticity truly means, and why research is so important; why variety is key in ensuring true diversity in characterization; and what agents, publishers, producers, filmmakers and commissioners are looking for—and why.

Sally Phipps was only three years old and the veteran winner of several beautiful baby contests when she appeared as the Baby in the film *"Broncho Billy And The Baby."* It was made at the Niles California Essanay Studio in late 1914. This book follows her amazing life and a career that culminated in her receiving the Rosemary (for remembrance) Award shortly before her death in 1978. Her memories of the early years at Essanay include sitting on Charlie Chaplin's lap and enduring a frightening stage coach accident. In her teens, she was a Fox Studio star appearing in 20 films, including a cameo in the classic

"Sunrise." There were bad times also. She was on the set of her Fox two-reel comedy *"Gentlemen Prefer Scotch"* in 1927 when word reached her of the scandalous death of her father, a state senator. But in that same year, she was selected as one of the 13 Wampas Baby Stars, starlets that were considered destined for future success. Despite her popularity in Hollywood, she left for New York where she became the darling of gossip columnists, particularly Walter Winchell. She appeared in two Broadway shows, made a Vitaphone comedy short, and married and divorced one of the Gimbel department store moguls before she darted off for India and around the world travel. Back in New York, there was another marriage, two children, and later a stay in Hawaii. Earl Wilson wrote about her in 1938 when she was working for the Federal Theatre Project during the WPA period -- headlining his column *"Wampas Ex-Baby Lives On WPA \$23 - And Likes It."* Her images - especially her pinup photographs - have become highly collectible. The book features 150 pictures from Sally's personal and professional life, including glamorous portraits and pinups.

The only screenwriting book that includes a DVD that contains performances of the short films and screenplays that are featured in the book! The beauty and power of any story lies in its ability to connect to the reader, listener, or observer. Crafting Short Screenplays That Connect is the first screenwriting guide to introduce connection as an essential, although essentially overlooked, aspect of creating stories for the screen and of the screenwriting process itself. Written with clarity and humor, this book teaches the craft of writing short screenplays by guiding the student through carefully focused writing exercises of increasing length and complexity. Eight award-winning student screenplays are included for illustration and inspiration. The text is divided into three parts. Part one focuses on preparing to write by means of exercises designed to help students think more deeply about the screenwriter's purposes; their own unique vision, material and process; and finally about what screenplays are at their simplest and most profound level--a pattern of human change, created from specific moments of change--discoveries and decisions. Part two teaches students how to craft an effective pattern of human change. It guides them through the

writing and re-writing of "Five (Not So Easy) Pieces"--five short screenplays of increasing length and complexity--focusing on a specific principle of dramatic technique: The Discovery, The Decision, The Boxing Match, The Improbable Connection, and The Long Short Screenplay. Part Three presents the five screenplays used throughout the book to illustrate the dramatic principles that have been discussed, and includes interviews with the screenwriters, a look at where they are now and what they are doing, and brief discussion of how each film evolved.
