The period from her first London assembly to her wedding day was the narrow span of autonomy for a middle-class Englishwoman in the eighteenth and early nineteenth centuries. For many women, as Katherine Sobba Green shows, the new ideal of companionate marriage involved such thoroughgoing revisions in self-perception that a new literary form was needed to represent their altered roles. That the choice among suitors ideally depended on love and should not be decided on any other grounds was a principal theme among a group of heroine-centered novels published between 1740 and 1820. During these decades, some two dozen writers, most of them women, published such courtship novels.

Specifically aiming them at young women readers, these novelists took as their common purpose the disruption of established ideas about how dutiful daughters and prudent young women should comport themselves during courtship. Reading a wide range of primary texts, Green argues that the courtship novel was a feminized genre -- written about, by, and for women. She challenges contemporary readers to appreciate the subtleties of early feminism in novels by Eliza Haywood, Mary Collyer, Charlotte Lennox, Samuel Richardson, Frances Brooke, Fanny Burney, Mary Wollstonecraft, Jane West, Mary Brunton, Maria Edgeworth, and Jane Austen -- to recognize that these courtship novelists held in common a desire to reimagine the subject positions through which women understood themselves.

D.W. Harding was a rarity amongst literary critics since his academic career was passed as Professor of Psychology. Yet this professional occupation never obtruded. As Professor Knights writes in his Foreword, as a critic 'he was one of the most sanely subtle or subtly sane) of his generation'. His title essay, 'Regulated Hatred', altered the course of Austen criticism, and this selection from the best of his writing about his favourite author (some of it previously unpublished) will be an important landmark in Austen criticism.

The Future of the Book Bedford/St. Martin's

In recent years, cultural commentators have sounded the alarm about the dire state of reading in America. Americans are not reading enough, they say, or reading the right books, in the right way. In this book, Alan Jacobs argues that, contrary to the doomsayers, reading is alive and well in America. There are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers. Oprah's Book Club is hugely influential, and a recent NEA survey reveals an actual uptick in the reading of literary fiction. Jacobs's interactions with his students and the readers of his own books, however, suggest that many readers lack confidence; they wonder whether they are reading well, with proper focus and attentiveness, with due discretion and discernment. Many have absorbed the puritanical message that reading is, first and foremost, good for you--the intellectual equivalent of eating your Brussels sprouts. For such people, indeed for all readers, Jacobs offers some simple, powerful, and much needed advice:

read at whim, read what gives you delight, and do so without shame, whether it be Stephen King or the King James Version of the Bible. In contrast to the more methodical approach of Mortimer Adler's classic *How to Read a Book* (1940), Jacobs offers an insightful, accessible, and playfully irreverent guide for aspiring readers. Each chapter focuses on one aspect of approaching literary fiction, poetry, or nonfiction, and the book explores everything from the invention of silent reading, reading responsively, rereading, and reading on electronic devices.

Invitingly written, with equal measures of wit and erudition, *The Pleasures of Reading in an Age of Distraction* will appeal to all readers, whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children.

A new collection from David Sedaris is cause for jubilation. His recent move to Paris has inspired hilarious pieces, including *Me Talk Pretty One Day*, about his attempts to learn French. His family is another inspiration. *You Can't Kill the Rooster* is a portrait of his brother who talks incessant hip-hop slang to his bewildered father. And no one hones a finer fury in response to such modern annoyances as restaurant meals presented in

ludicrous towers and cashiers with 6-inch fingernails. Compared by *The New Yorker* to Twain and Hawthorne, Sedaris has become one of our best-loved authors. Sedaris is an amazing reader whose appearances draw hundreds, and his performances including a jaw-dropping impression of Billie Holiday singing *I wish I were an Oscar Meyer weiner* are unforgettable. Sedaris's essays on living in Paris are some of the funniest he's ever written. At last, someone even meaner than the French! The sort of blithely sophisticated, loopy humour that might have resulted if Dorothy Parker and James Thurber had had a love child.

As new media mature, the changes they bring to writing in college are many and suggest implications not only for the tools of writing, but also for the contexts, personae, and conventions of writing. An especially visible change has been the increase of visual elements—from typographic flexibility to the easy use and manipulation of color and images. Another would be in the scenes of writing—web sites, presentation "slides," email, online conferencing and coursework, even help files, all reflect non-traditional venues that new media have brought to writing. By one logic, we must reconsider traditional views even of what counts as writing; a database, for example, could be a new form of written work. The authors of *Writing New Media* bring these ideas and the changes they imply for writing instruction to the audience of rhetoric/composition scholars. Their aim is to expand the college writing teacher's understanding of new media and to help teachers prepare students to write effectively

with new media beyond the classroom. Each chapter in the volume includes a lengthy discussion of rhetorical and technological background, and then follows with classroom-tested assignments from the authors' own teaching.

In Writing in Between, Beth Sharon Ash develops an important theoretical framework for interpreting Conrad's signal texts and his situation as an author. Using object-relations psychoanalysis, Ash reinserts into the literary conversation the idea of the psychologically-inflected subject. She integrates authorial subjectivity within historical context, thus lending agency and density to the 'relational subject' without neglecting the social forces which shape it. This book carefully positions Conrad as a

writer caught 'in between,' as both a figure of alienation, critically disenchanted with British imperialism, and an orphan of genius desperately desiring a fit with his adopted culture. Through specific, often surprising readings of Conrad's novels and broad analysis of psychoanalytic and modernist criticism, Ash makes a significant theoretical contribution to theories of the subject.
