How to Make a Journal of Your Life Forge Books

When nomad artist and free spirit Dan Price began jotting down his musings in the form of whimsical drawings and inspired prose, he hardly could have imagined that his self-published journal-zine, the MOONLIGHT CHRONICLES, would earn him a cult following across the country. Now in its twentieth edition, the MOONLIGHT CHRONICLES has brought Dan's creed of "truth, beauty, and really big sabbaticals from the convention of life" to thousands across the country. With such a following, Dan figured it was time to collect his offbeat observations into book form in hopes of inspiring other would-be journal writers to take pen, camera, and brush in hand. As Dan is fond of noting "Seems there's tons of empty journal books, but not too many on how to fill 'em up!" In HOW TO MAKE A JOURNAL, Dan answers the call, teaching readers how to tap into those pent-up creative juices and collect their life experiences on paper.

** By the authors of the acclaimed Introduction to Rubrics** Major growth of interest in keeping journals or diaries for personal reflection and growth; and as a teaching tool** Will appeal to college faculty, administrators and teachers One of the most powerful ways to learn, reflect and make sense of our lives is through journal keeping. This book presents the potential uses and benefits of journals for personal and professional development—particularly for those in academic life; and demonstrates journals' potential to foster college students' learning,

fluency and voice, and creative thinking. In professional life, a journal helps to organize, prioritize and address the many expectations of a faculty member's or administrator's roles. Journals are effective for developing time management skills, building problem-solving skills, fostering insight, and decreasing stress. Both writing and rereading journal entries allow the journal keeper to document thinking; to track changes and review observations; and to examine assumptions and so gain fresh perspectives and insights over past events. The authors present the background to help readers make an informed decision about the value of journals and to determine whether journals will fit appropriately with their teaching objectives or help manage their personal and professional lives. They offer insights and advice on selecting the format or formats and techniques most appropriate for the reader's purposes.

Two major trends have recently swept the travel world: the first, an overwhelming desire (thanks to Elizabeth Gilbert's bestseller, Eat, Pray, Love) to write one's own memoir; the second, an explosion of social media, blogs, twitter and texts, which allow travelers to document and share their experiences instantaneously. Thus, the act of chronicling one's journey has never been more popular, nor the urge stronger. Writing Away: A Creative Guide to Awakening the Journal-Writing Traveler, will inspire budding memoirists and jetsetting scribes alike. But Writing Away doesn't stop there—author Lavinia Spalding spins the romantic tradition of keeping a travelogue into a modern, witty adventure in awareness, introducing the traditional handwritten journal as a profoundly valuable tool for self-discovery, artistic expression, and spiritual growth. Writing Away teaches you to embrace mishaps in order to enrich your travel experience, recognize in advance what you want to remember, tap into all your senses, and connect with the physical world in an increasingly technological age. It helps you overcome writer's block and procrastination; tackle the discipline, routine, structure, and momentum that are crucial to the creative process; and it demonstrates how traveling—while keeping a journal along the way—is the world's most valuable writing exercise.

In this book, Dr. Timothy Horan presents an original and highly effective writing program whose major goal is to transform high school students into accomplished writers and mature young adults. This writing program is innovative, rigorous, and engaging, and was designed with high school students in mind. This volume contains a total of twenty original writing projects that represent creative (and innovative) interpretations of Common Core Writing Standards. These projects focus on the worlds of contemporary secondary students, exploring such topics as technology, literature, goals for the future, and potential careers. Each assignment in this book is full and complete, and includes a reproducible outline that presents the assignment to students in a simplified graphical format. As students progress through this program, they will encounter engaging writing projects that foster growth and anticipate the changes occurring in students' lives during this time of development and transition. It will also prepare students for the rigors of writing in college, career, and the unwritten future that awaits all of them. Finally, Dr. Horan issues a call for every secondary school in the United States to create and implement courses singularly devoted to the craft of writing—and this book contains the curriculum for that course.
